A scenic sunset over a body of water. The sun is low on the horizon, creating a bright, golden glow that reflects on the water's surface. In the foreground, there are silhouettes of reeds and other aquatic plants. On the right side, a dark, curved handle or part of a boat is visible. The overall atmosphere is peaceful and serene.

**PROGRAM**

**2023/2024**

Cross Wrap Cross Water 5PIF

## CROSS WATER 5PIF

### SPINNING REEL

The Cross Water 5PIF offers an outstanding price-performance ratio and – depending on the reel size – is designed for permanent reliable application at freshwater fishing for zander, pike, perch or trout but can also be used for general coarse fishing.

Thanks to the power gear and the accurate cross wrap with X-Wind line lay the Cross Water 5PIF is also perfectly suited for the use of thin braided lines. The line lay is exemplary while the convenient running cares for permanent fishing fun.

- 4 ball bearings
- Power gear
- Infinite Anti-Reverse®, stageless
- Finely adjustable spool drag
- X-Wind cross wrap
- S-Stroke oscillation system
- Aluminum longcast spool
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- CNC-machined aluminum handle
- Soft-touch handle knob

Art.-No.	Size	BB total	Capacity m/mm	Ratio	Retrieval cm	Weight g

## SPOON TROUT 8PIF

### TROUT SPINNING REEL

Classic design meets latest technology. Size and line capacity are perfectly matched for the requirements of light trout fishing. The compact combination of body and rotor as well as the super-shallow and perfectly dimensioned spool form a harmonic unit and can be perfectly used with any type of Trout Spoon rod. Designed for the use of thin mono or braided lines the Spoon Trout 8PIF allows also casting of smallest spoons to long distances thanks to the X-Wind cross wrap. The 7 ball bearings and the accurately manufactured components care for a silky-smooth running and allow convenient application at fishing.

Cross Wrap Spoon Trout 8PIF

- 7 ball bearings
- Infinite Anti-Reverse®, stageless
- Finely adjustable spool drag
- X-Wind cross wrap
- S-Stroke oscillation system
- Aluminum longcast spool
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- CNC-machined aluminum handle
- Soft-touch handle knob

12-58150	1500	7	140/0.14	5.1:1	61	175

## SPOON TROUT 4PIF

### TROUT SPINNING REEL

Expectations on light trout reels can't be met more sovereignly within this price range. This reel catches the attention of every angler at first glance. The sporty and dynamic silhouette and the compact unit of housing and rotor as well as the perfectly dimensioned spool would excel also much pricier reels. Designed for the use of slim mono and braided lines this reel allows convenient casting also of smallest spoons thanks to the perfect X-Wind cross wrap.

Cross Wrap Spoon Trout 4PiF

- 3 ball bearings
- Infinite Anti-Reverse®, stageless
- Finely adjustable spool drag
- X-Wind cross wrap
- S-Stroke oscillation system
- Aluminum longcast spool
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- Aluminum handle
- Soft-touch handle knob

Art.-No.	Size	BB total	Capacity m/mm	Ratio	Retrieval cm	Weight g
12-44150	1500	3	140/0.14	5.1:1	61	175

## SPORTLINE 2PIF

### SPINNING REEL

Developing reels, that are excelled by their excellent price-performance ratio has been the goal of CORMORAN ever since. Of course this reel is no exception. This reliable companion unites robustness with low weight and a smooth running. And all that at an unbeatable price.

- 1 ball bearing
- Infinite Anti-Reverse®, stageless
- Finely adjustable spool drag
- X-Wind cross wrap
- S-Stroke oscillation system
- ABS nylon longcast spool
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- Aluminum handle
- Soft-touch handle knob

12-22250	2500	1	180/0.25	5.1:1	70	220

## VEYCOR FEEDER 4PIF

### LONGCAST FEEDER REEL

Compact and ultra-modern longcast reel for feeder fishing as well as long range carp fishing or heavy spin fishing with slim braided lines.

Equipped with especially designed aluminum spool, which features a large diameter and allows excellent casting distances. Equipped with 2 metal feeder line clips. The discreet design and the compact unit of drag, rotor and spool characterizes the appearance of this reel. The X-Wind cross wrap is operated via the S-Stroke system, which is in charge for the even line lay and therefore enables extraordinarily long casting distances. The QD fast drag with drag discs made of carbon can be switched from completely loose to fully operating within one turn. The high power transmission of the VeyCor Feeder 4PIF is the solid foundation for quick und secure fights with the fish.

Only one turn between run and fun!

- 3 ball bearings
- Infinite Anti-Reverse®, stageless
- Fast Drag front drag
- Carbon drag discs
- X-Wind cross wrap
- S-Stroke oscillation system
- Aluminum longcast spool
- „Spring-Type“ line clip (double)
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- Aluminum handle
- Large soft-touch handle knob

Art.-No.	Size	BB total	Capacity m/mm	Ratio	Retrieval cm	Weight g
14-40600	6000	3	240/0.20	5.5:1	107	440

**VEYCOR FEEDER 5PIF**

FEEDER REEL

Today carbon fiber feeder rods are handier and more lightweight than ever before. But nevertheless, they have to be robust and tough. To create an appropriate partner for these modern feeder rods we developed the VeyCor Feeder 5PIF 5000, which is based on the same principles: lightweight, highly robust and affordable. At the VeyCor Feeder 5PIF we had a particular focus at the drag: also this reel features our new Brake Block drag system with „QD“ Fast Drag function, since you fully have to rely on your drag when setting the hook at fishing in strong currents. The high power transmission supports the angler at ending the fight with the fish quickly and allows the fisherman to lead the fish securely to the landing net. With a line capacity of 230m/0.25mm The VeyCor Feeder 5PIF 5000 has the proper size for all types of feeder fishing, including heavy feeder fishing at large rivers. Equipped with supersized 2-times anodized aluminum spool with 2 large lineclips and fast snap aluminum handle.

- 4 ball bearings
- Infinite Anti-Reverse®, stageless
- Brake Block drag system
- Fast Drag front drag
- X-Wind cross wrap
- S-Stroke oscillation system
- CNC-machined aluminum longcast spool
- „Spring-Type“ line clip (double)
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- Aluminum fast snap handle
- Soft-touch handle knob

Only one turn between run and fun!

## BIG CAT 5PIF

### CATFISH REEL

The Big Cat 5PIF catfish reel combines high toughness and winding power with a smooth and well-balanced running as well as high line capacity. The strong and thick-walled body cares for a safe housing of the power gear and allows a high power transmission at the fight with large catfish.

The particularly developed CNC-cut aluminum spool features a high line capacity and is also suited for the use of strong braided lines.

- 4 ball bearings
- Infinite Anti-Reverse®, stageless
- Extra strong spool drag
- X-Wind cross wrap

Cross Wrap Seacor Power Pilk 5PIF

## SEACOR POWER PILK 5PIF

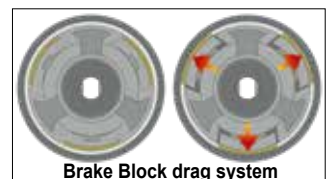

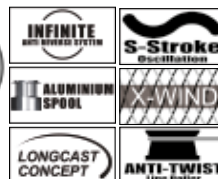

### SALTWATER SPINNING REEL

When your expectations on a jigging reel are predominantly focused on supreme quality and reliable performance, the Seacor Power Pilk 5PIF is just the right choice. Designed for tough application and equipped with a real power gear, which is operated via the strong CNC-cut aluminum handle, you don't have to fear the fight with even large specimen. This reel further features our novel Brake Block drag system, 4 „NCBB“ steel ball bearings, a super-strong aluminum long-cast spool and our S-Stroke system, which guarantees a perfect line lay. Also the other components – like the strong bail or the invincible reel body – ensure reliable functioning and a long lifespan.

Cross Wrap Seacor Pilk 5PiF

## SEACOR PILK 5PIF

### SALTWATER SPINNING REEL

State-of-the-art saltwater spinning reel with particularly designed spool, which instantly meets the eye thanks to its large diameter and is famous for its outstanding casting properties. Thanks to the S-Stroke system an even line lay is ensured, regardless if monofilament or braided lines are used.

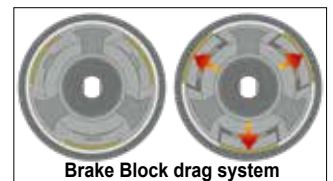

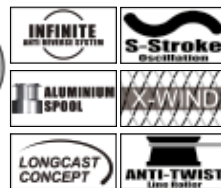

This reel is perfectly applicable as light jigging reel or for spin fishing at the sea. All components are highly robust, since even light jigging is quite demanding for fishing reels.

This reel further features our novel Brake Block drag system, 4 „NCBB“ steel ball bearings, a super-strong aluminum long-cast spool and our S-Stroke system, which guarantees a perfect line lay. Also the other components – like the strong bail or the invincible reel body – ensure reliable functioning and a long lifespan.

Cross Wrap VeyCor BR 7PiF

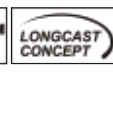

## VEYCOR BR 7PIF

### FREESPOOL REEL

The VeyCor BR 7PiF is an outstanding free spool reel, which is excelled by its remarkably smooth running and the reliably working free spool system that is a common characteristic for CORMORAN. It works accurately, is adjustable over a broad range and allows also completely free drawing of the line. The small sizes are perfectly suited for common ground fishing for smaller fish as well as for fishing for barbels and trouts. Thanks to the free spool system they can also conveniently be applied for match fishing. The larger models are the right choice for fishing for carp or feeder fishing in strong currents. Equipped with a light t-tone aluminum spool and a sturdy cnc-cut aluminum handle.

- 6 ball bearings
- Infinite Anti-Reverse®, stageless
- Finely adjustable spool drag
- Automatic free spool system, adjustable
- X-Wind cross wrap
- S-Stroke oscillation system
- Aluminum longcast spool
- PowerBail
- Large anti-twist line roller
- Longlife bail spring
- CNC-machined aluminum handle
- Soft-touch handle knob

19-74600	6000	6	400/0.32	5.5:1	110	495

## VEYCOR BR 4PiF

### FREESPOOL REEL

The smaller models of the VeyCor BR 4PiF are the proper choice for common coarse fishing for all smaller target fish as well as for fishing for barbels and trouts. Due to its free spool system it can be also conveniently applied for match fishing. The larger models of this series are designed for heavy fishing for carps or for fishing at strong currents as well as for feeder fishing.

The VeyCor BR 4PiF reels are equipped with a lightweight two tone aluminum spool. The free spool system works precisely and can be adjusted over a broad range, allowing even to set the system to zero resistance.

Cross Wrap VeyCor BR 4PiF

- 3 ball bearings
- Infinite Anti-Reverse®, stageless
- Finely adjustable spool drag
- Automatic free spool system, adjustable
- X-Wind cross wrap
- S-Stroke oscillation system
- Aluminum longcast spool

**CORMAXX BR 3PIF**

**FREESPOOL REEL**

Beautiful and light free spool reels with convincing price-performance ratio. The freespool system works precisely and can be adjusted over a wide range, allowing also a completely free drawing of the line. The gearing works reliably and round with hardly noteworthy resistance at the handle – a real exception within this price category.

- 2 ball bearings
- Infinite Anti-Reverse®, stageless
- Automatic free spool system, adjustable
- X-Wind cross wrap
- S-Stroke oscillation system
- 2-tone aluminum spool
- PowerBail
- Large anti-twist line roller
- Aluminum handle
- Soft-touch handle knob

Equipped with premium 2-tone aluminum spool and a line-sparing anti-twist line roller.

# RODS 2023/2024

## THE FOUNDATIONS OF OUR ROD DESIGN

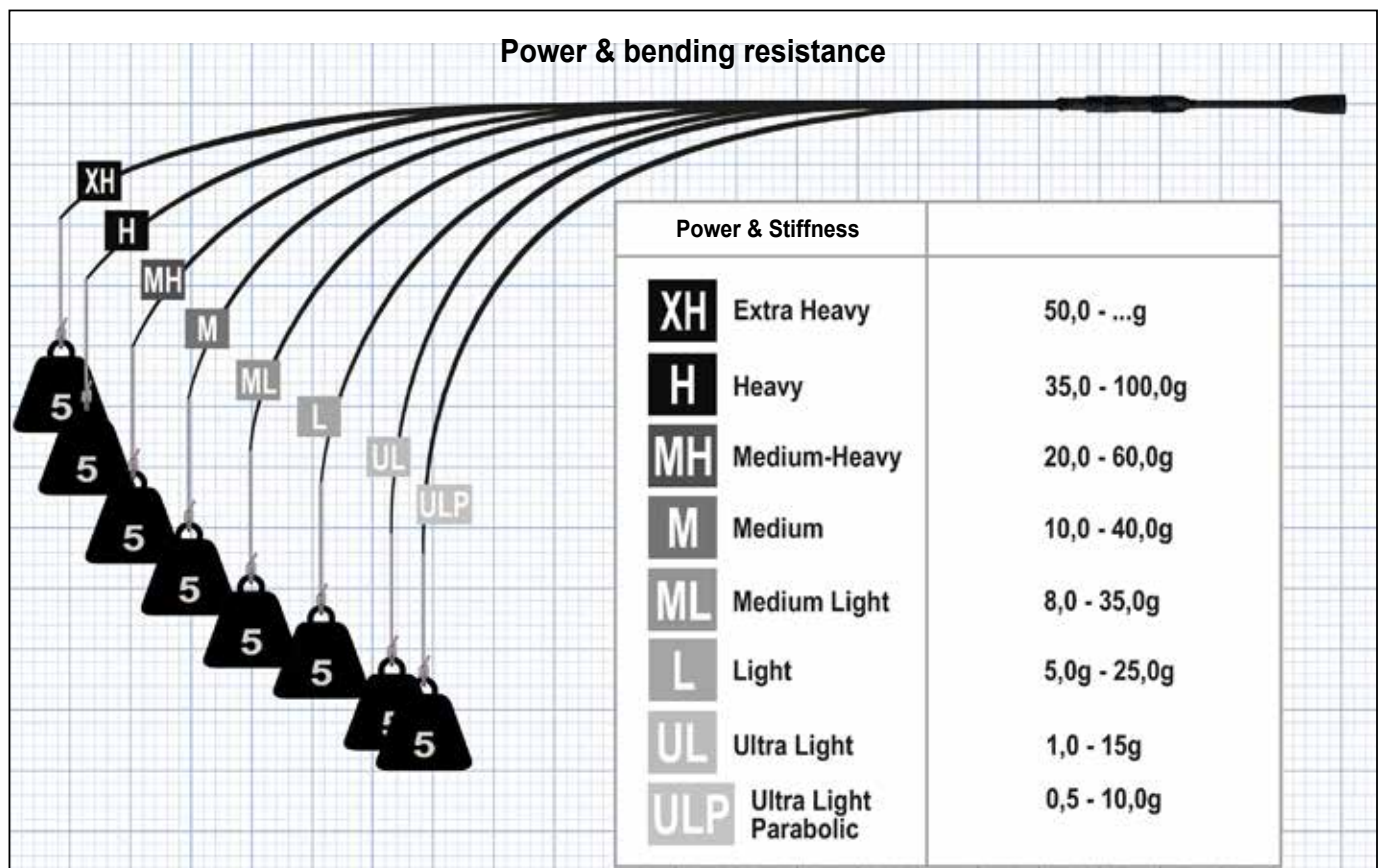

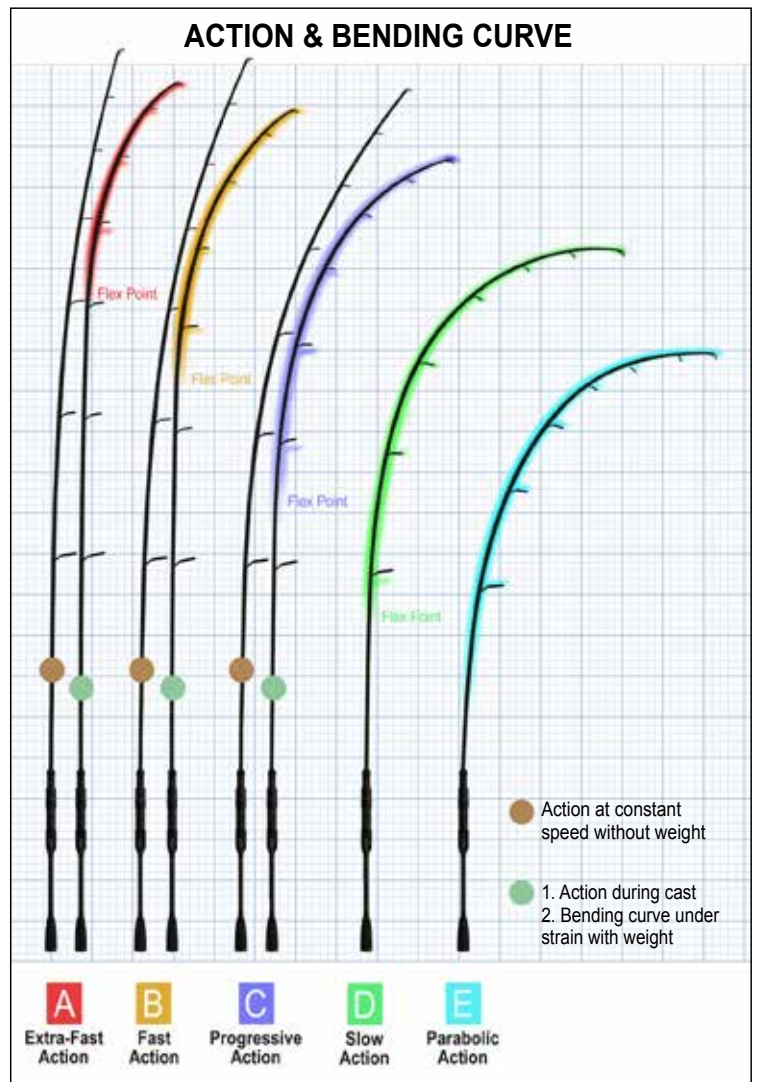

The design of our spin and predator rods is subject to strictly defined principles, which are the basis for all rod series. Each rod model is signed considering its action and corresponding bending curve and considering its power and bending resistance. A rod isn't only marked by its action or the bending resistance by their own but by the combination of both substantial characteristics.

### Action & Bending Curve

Depending on the demand, all of our rods can be allocated to a strictly defined action type. Thus rods with an extra-fast **A** action are extremely fast and very sensitive for long and precise casts and to recognize every lure movement in the handle section. The backbone is stiff and powerful – but with this kind of action these rods are not that easy to handle during the fight compared to rods with a **B** or **C** action, which buffer and absorb more. The ones with **D** or **E** action are perfect fighting rods, but in return they offer less long and precise casts and the backbone is relatively soft and less powerful. Perfect for uncomplicated lures, but for more demanding ones, a **A** or **B** actioned rod is the better choice. Rods with these kinds of action usually need carbon fiber material with more elasticity than rods with **C** or **D** action and thus are more expensive. Our **Jiggerspin** rods with **AB** action represent an exception. They perfectly combine the characteristics of an **A** and a **B** action and are always reliable during the fight and somewhat more absorbing than rods with a single **A** action. The Flex point on a Jiggerspin rod is more flexible and adapts according to the strain.

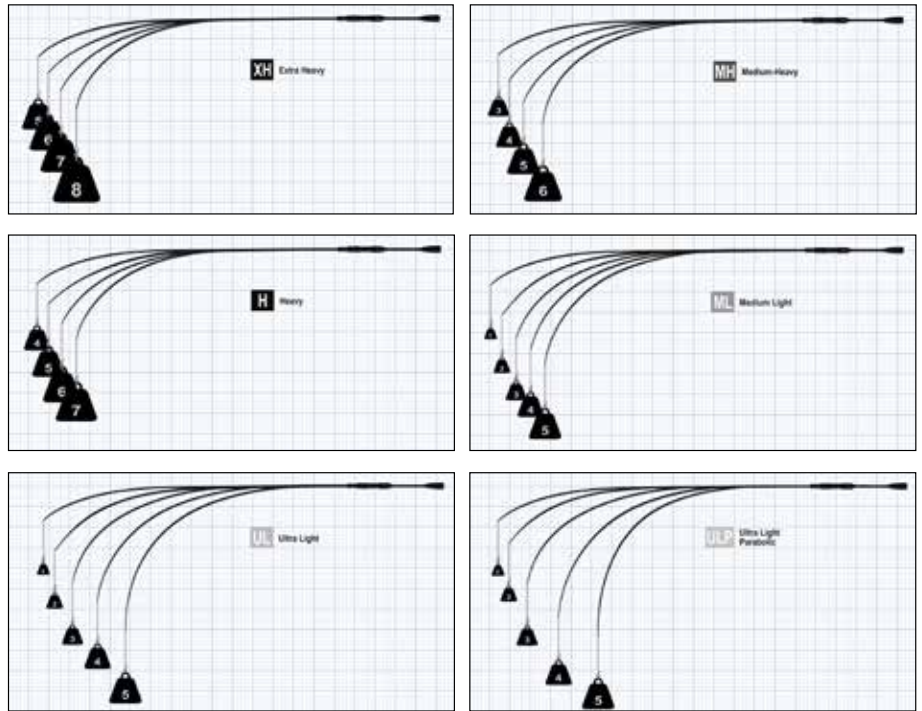

### Power & Bending Resistance

This diagram illustrates all classes of power and stiffness with according casting weights (all tested with the same weight – the number “5” is a classification number, no kg specification). Nevertheless the range is somewhat broader than illustrated – thus in individual cases a rod with power and stiffness level L can also have a casting weight of up to 28g.

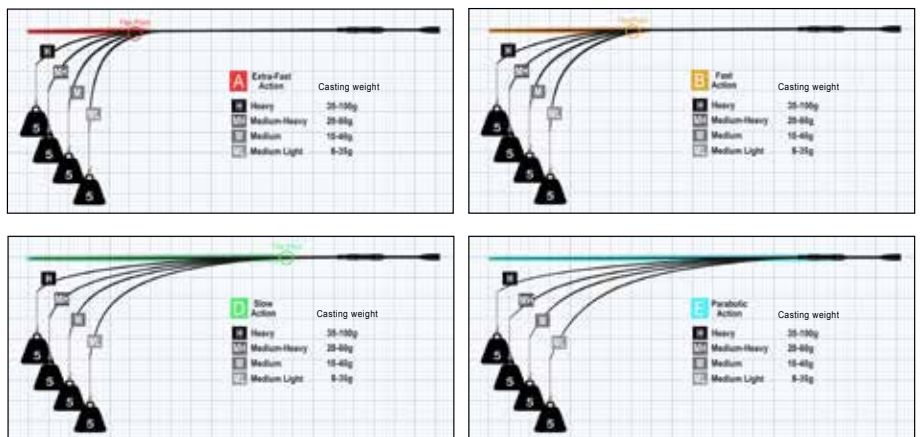

# RODS

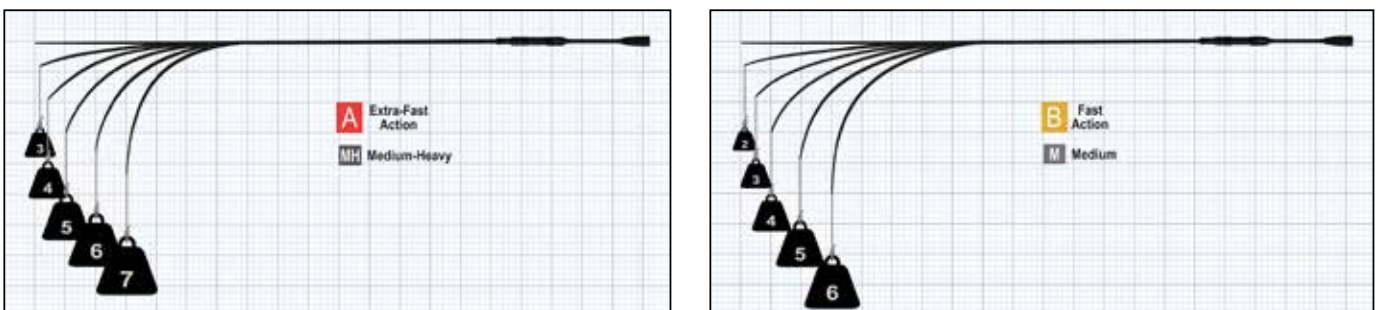

Considering the power & stiffness diagrams of different rods in more detail, you can see the bending resistance under increasing weight. **(the weights are listed in classification numbers, not in kg).** These diagrams do not consider the different action types but only the bending resistance.

Considering the action & bending curve diagrams in more detail, you can see the bending resistances of differently stiff rods with the same action number. **(all tested with the same weight – the number “5” is a classification number, no kg specification).** To make it easier, only rods with **ML-H** characteristics are depicted – of course there are also rods with **A** action among **L** or **UL** models.

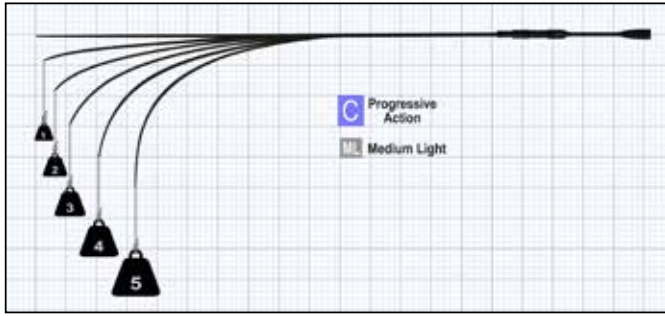

Considering particular rods, the combined diagrams of action & bending curve and power & bending resistance look like below **(the weights are listed in classification numbers, not in kg)**

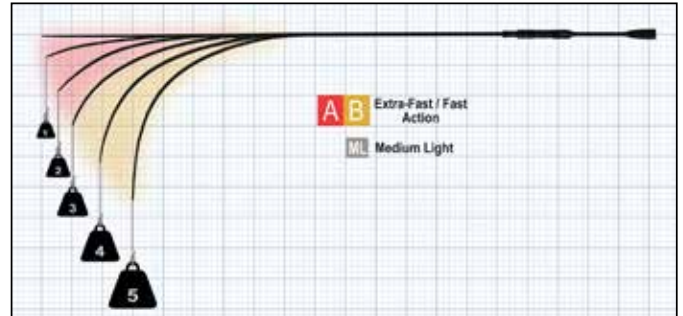

A rod's bending curve with ultra-fast **A** action in a **MH** medium-heavy version under different weights is shown below. The range of the casting weight is 20-60g. This kind of rod is powerful with a strong backbone and an extremely fast, very sensitive tip, which perfectly transmits the lure's action to the handle section. With this kind of rod long, precise casts and a fast, instantaneous setting of the hook are guaranteed. The resilience is great. But be cautious during the fight, especially in combination with braided lines – such a rod isn't absorbing that much and thus facilitates losses during too forced fights. An absorbing shockleader can help. This kind of rod is perfect for sophisticated lures, which need precise presentation.

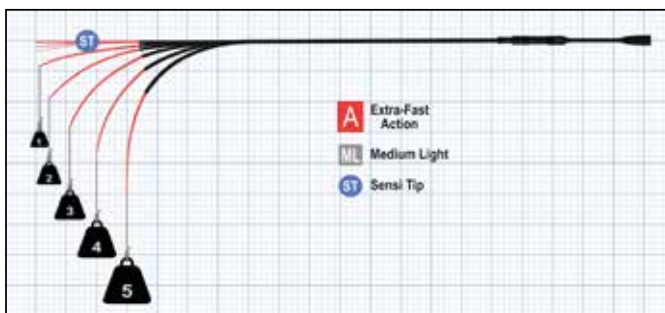

A rod's bending curve with fast **B** action in a **M** medium version under different weights is shown below. The range of the casting weight is 10-40g. This kind of rod is powerful with a strong backbone and a sensitive tip, which leads the lures movements directly to the handle section. With this kind of rod, long and precise casts as well as a fast, instantaneous setting of the hook are guaranteed. The resilience usually is very fast. During the fight, such a rod is much less problematic than rod with action **A**. This kind of rod is perfectly made for all lures whose movements you want to feel in the handle section. Also cautious bites are indicated reliably with these rods.

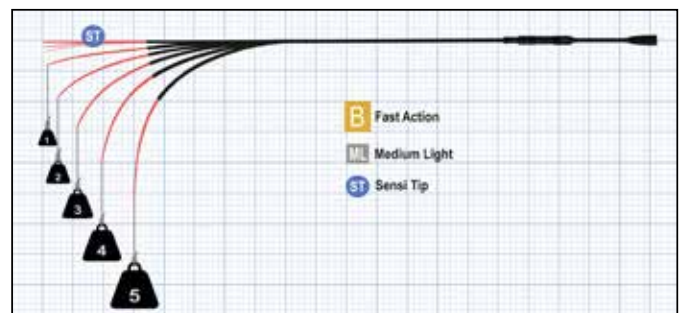

A rod's bending curve with progressive **C** action in a **ML** medium-light version loaded with different weights is shown below. The range of the casting weight is 8-35g. This kind of rod is very unproblematical regarding nearly all fields of application and does its job unexcitedly. It is a good choice for casual anglers and beginners fishing with small to medium lures. For bigger lures the **M** version with casting weights 10-40g or the **MH** version with 20-60g are the best choice. For a less experienced angler especially the fight with the fish is much easier with this kind of rod than with a faster rod of the **B** or even **A** type.

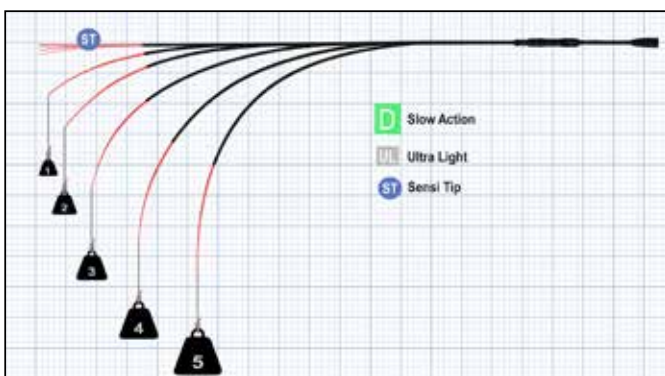

A jiggerspin rod's bending curve with special **AB** action in a **ML** medium-light version under different weights is shown below. The range of the casting weight is about 8-35g. A jiggerspin rod is very special and the right choice for plenty fields of application. The Flex Point (bending point of the blank under strain) of a jiggerspin rod adapts according to the strain. When presenting a difficult lure, the very fast tip transmits movements up to the handle section. During the cast and the fight, the Flex Point is accommodating to the **B** position. The jiggerspin rod is much more flexible within these tasks than a rod with a single **A** action. Our jiggerspin rods in **L** version with casting weights up to 28g are also very popular.

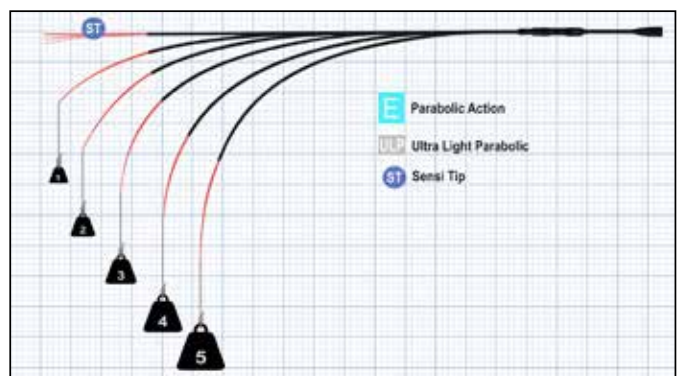

A rod's bending curve with extra-fast **A** action in a **ML** medium-light version and a **ST** solid carbon fiber tip under different weights is shown below. The range of the casting weight is 8-35g. To be satisfying the expectations, this kind of rod can only be realized with a High Modulus carbon fiber material to enable a great, ultra-fast tip action. It is marked by a powerful backbone and an extremely fast, sensitive solid carbon fiber tip, with reliably indicates even softest bites. Long and precise casts as well as a fast, instantaneous hooking are guaranteed. The resilience is fast. During forced fights with braided lines, losses can be elevated. An absorbing shockleader is often necessary. The **L**-Light category of this rod type is perfectly suited for sensitive finesse fishing with small plastic lures and jigs for perch, zander and trout. The **UL**-Ultralight category of this rod type is perfectly suited for highly sensitive finesse fishing with small and smallest lures for trout, perch and zander.

A rod's bending curve with fast **B** action in a **ML** medium-light version and a **ST** solid carbon fiber tip under different weights is shown below. The range of the casting weight is 8-35g. This type of rod is a supreme example for a jigging rod for perch, zander and trout with small plastic lures and jig, for a dropshot rod and for a natural bait rod for perch. The solid carbon fiber tip is extremely sensitive and detects also softest bites. Despite its strong backbone, such a rod is very unproblematical during the fight and does its job in all fields of application as expected. The **L**-Light category of this rod type is perfectly suited for sensitive fishing with small plastic lures and jigs for perch, zander and trout and for fishing with Texas and Carolina rig. The **UL**-Ultralight category of this rod type is perfectly suited for sensitive fishing with small and smallest lures for trout, perch and zander.

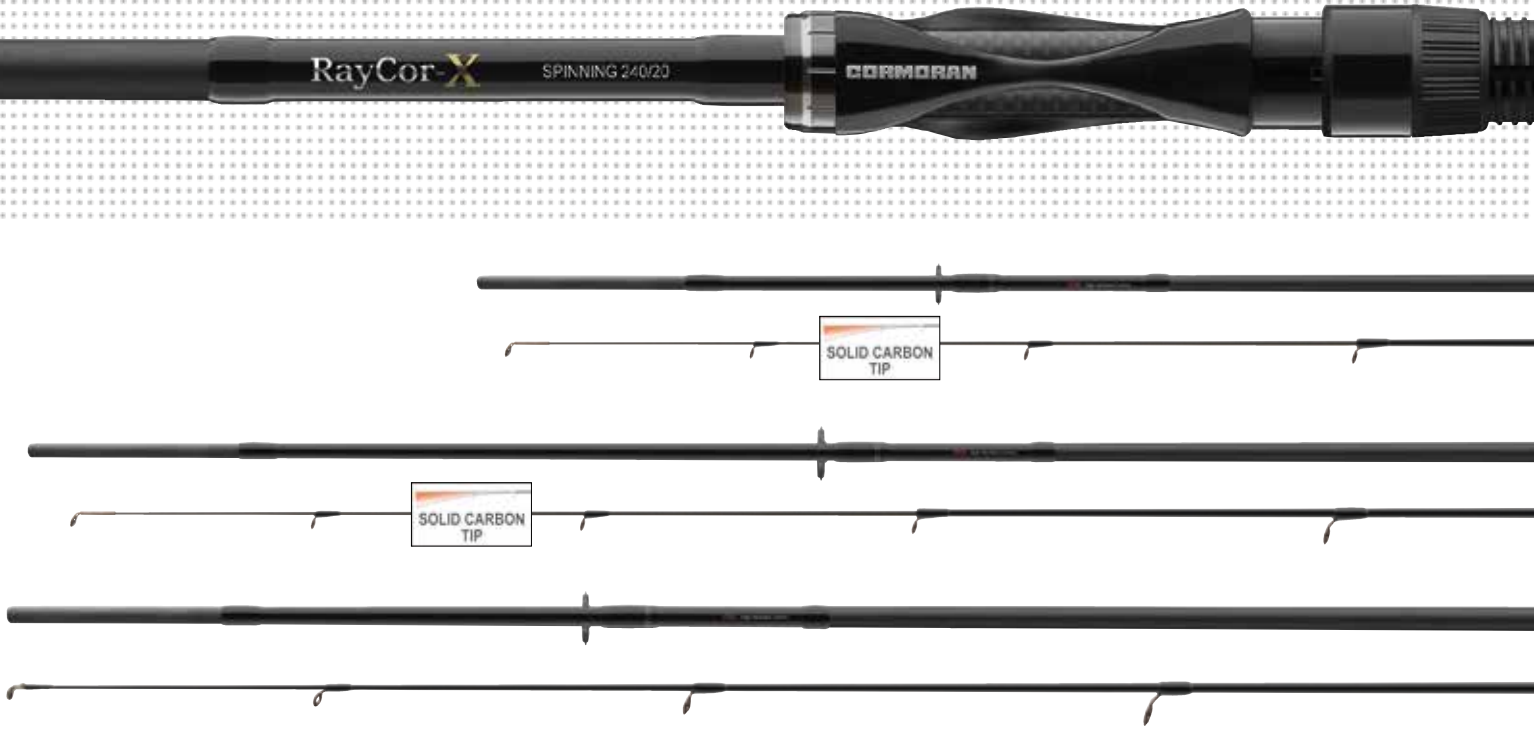

A rod's bending curve with slow **D** action in an **UL** ultra-light version and a **ST** solid carbon fiber tip under different weights is shown below. The range of the casting weight is 1-15g. This kind of rod is perfectly matching for fishing with undemanding lures as small spoons etc. for trout or perch in small waters over short distances. The solid carbon fiber tip is extremely sensitive and indicates also softest bites. The power reserves are limited but a fight with this kind of rod is very special.

A rod's bending curve with parabolic **E** action in an **ULP** ultra-light parabolic version and a **ST** solid carbon fiber tip under different weights is shown below. The range of the casting weight is about 0.5-10g. This type is the ultimate choice for fishing with mini-spoons within trout ponds over short distances and for lures, which are presented with slowly retrieving. The solid carbon fiber tip is extremely sensitive and detects also softest bites. The power reserves are very limited, especially when fighting against big trouts. Thus the fight can last a bit longer, but is in anyway a special event.

Spinning & Predator Rods

RAYCOR X SPINNING

The evolution continues – the RayCor-X again sets new standards.

The X within the name RayCor stands for “extra-fast”: ultra-fast action for a perfect lure presentation, for long, precise casts and a fast, immediate setting of the hook. Equipped with ergonomically perfectly shaped “High-Touch” reel seat, which enables straight contact to the rod’s vibes and fixes the reel safely. When other anglers reach their personal limits with their rods, the RayCor-X sets new benchmarks. It’s power reserves ensure safety and a plus regarding performance. The RayCor-X easily stands powerful casts – increase your casting distances and set the hook even over great distance. Furthermore, you can exactly feel the movements of your lure at the end of the line in every situation – an advantage, many anglers do not know because they never experienced this sensitivity with their equipment. We offer models for nearly all kind of fishing, no matter if for ultra-light finesse-fishing with mini plugs or heavy fishing with soft plastic lures for big pikes.

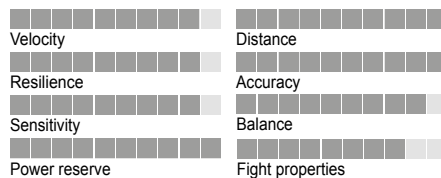

- High modulus carbon fiber blank (HMC)
- Premium EVA grip
- Sensi-touch reel seat
- SiC guides
- Hook keeper
- Cloth bag

RAYCOR X SPIN

SPINNING ROD | L-H | TIP-ACTION

Latest spinning rod with a fast tip action for long, precise casts. The RayCor-X Spin is lightweight and well-balanced.

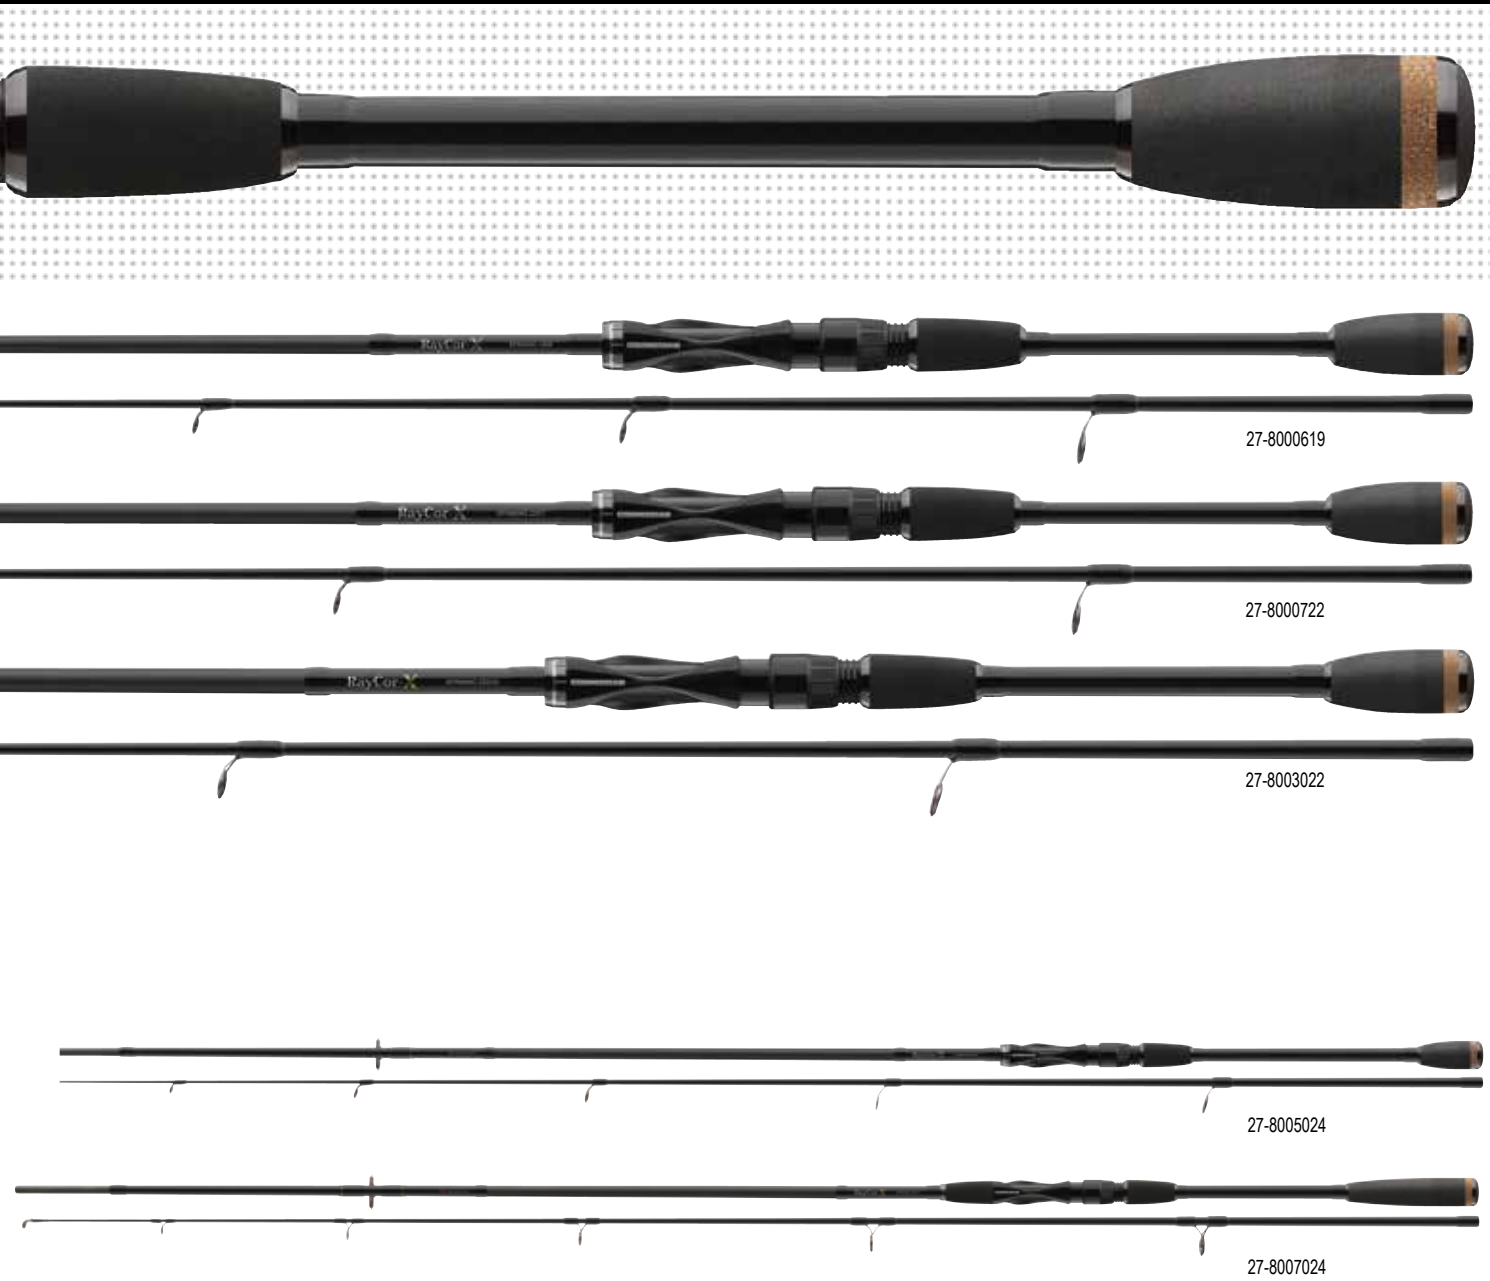

- Specialty**
- Solid carbon fiber tip, highly sensitive
  - Ultra-fast tip action
  - Perfect bite detection

Art.-No.	Length m	CW g	Action	Closed L. cm	Sect.	Guides	Weight g

Spinning & Predator Rods

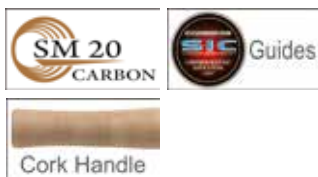

**BLACK MASTER SPINNING**

The inseparable combination of technology and fishing fun.

Developed for nearly all fields of application of modern spin fishing with braided and mono lines, the latest Black Master rods feature a fast action and low weight combined with an outstanding rod balance. The foundation of these special properties is set by the use of our High-Strength SM20 carbon fiber material, which cares for dynamic actions and robust blanks.

The equipment of the Black Master rods comprises a cork handle, lightweight SiC guides, a solid and functional screw-in reel seat as well as a cloth bag, which protects the rod parts also during transportation. The blanks are made of SM20 carbon fiber.

- SM20 carbon fiber blank
- Premium cork grip
- Functional reel seat
- SiC guides
- Hook keeper
- Cloth bag

## PRO CARP XR

Super-affordable carp rods with strong backbone and superb fighting characteristics.

The Pro Carp XR rod series is equipped with a modern, progressive action. The blank is made of SM24 carbon fiber and mediates a perfect sensitivity to the handle section during the fight – thus an extraordinary fighting experience is guaranteed. For reaching long distances, these rods effectively load during the cast. Thanks to the outstanding absorbing qualities, the risk of losses right before the net is reduced significantly. Thus even powerful flights can be absorbed easily and the carp can be directed straight over the net.

- SM24 carbon fiber blank
- EVA grip
- Functional reel seat
- SiC guides
- Cloth bag

### GF FEEDER PRO

Extraordinary feeder rods.

Wonderfully slim and powerful feeder rods, which are characterized by their light weight and pleasant balance. The blanks of the new GF Feeder Pro rods are made of SM24 carbon fiber material, which provides the rods with great casting dynamics and power transmission for long, targeted casts.

Equipped with light, line-protecting SiC guides and a long cork/EVA handle.  
3 quiver tips (Short Track feeder rods: 2 tips) as well as cloth bag are included.

## Coarse Fishing Rods

## BULL FIGHTER

FEEDER 3.60m / 90g

## BULL FIGHTER FEEDER

The new Bull Fighter Feeder and Picker rods are slimmer, more lightweight and feature a stronger backbone than the previous models.

Be delighted by a completely new carbon fiber series, which offers much more than you expect. Beyond the design, which would excel also much pricier rods, also the stiff blank and the equipment convince at first glance.

Titanium-oxid guides, a split EVA handle and a functional Screw-Down reel seat are everything but normal within this price range. Delivered with cloth bag.

- IM6 carbon fiber blank
- Premium EVA grip
- Screw-down reel seat
- Titanium oxide guides
- Cloth bag

## BULL FIGHTER FEEDER

## FEEDER ROD | M-XXH

These rods enable also the occasional fisherman to target the desired spot easily. The powerful IM6 carbon fiber blanks equip the Bull Fighter feeder rods with much power for long and accurate casts.

Thanks to the interchangeable quiver tips perfectly adopted bite detection is guaranteed, since the fish does not feel any resistance like at float or ground fishing.

Equipped with titanium-oxid guides and long split EVA handle, which ensures an optimal lever for long and powerful casts. Delivered with 2 glass fiber quiver tips.

Coarse Fishing Rods

**APM FLOAT**

High-end float rods.

Not only feeder fishing is gaining popularity, but also float fishing gets more and more sophisticated and is in continuous progression. Improved fishing techniques and an elaborate supply range demand rods, which are able to realize this potential. Longer casts, more sensitive fishing and a more controlled fight with the fish are the demands. With the CORMORAN APM rods we developed three series, which cover all areas of float fishing like coarse, zander, and fishing for trout at ponds.

Made of SM24 carbon fiber, refined with SiC guides and a superior cork handle.

**APM 30 TROUT & FLOAT**

FLOAT ROD | CW -30G

The APM 30 Trout & Float features a lightweight and slim blank with distinct tip action. Thanks to the sensitive action these rods are perfectly applicable for fishing with sbirolinos as well as for coarse fishing and fishing for zander with small baitfish.

- SM24 carbon fiber blank
- Premium cork grip
- Screw-down reel seat
- SiC guides
- Cloth bag

Art.-No.	Length m	CW g	Action	Closed L. cm	Sect.	Guides	Weight g
25-4030361	3.60	10-30	medium fast	125	3	13	240

25-4030361

25-4040361

25-4060361

**APM 40 POWER FLOAT**

FLOAT ROD | CW -40G

Powerful float rod for casting weights of 10-40g with fast tip and a strong backbone for fishing with wagglers and pole floats. For coarse fishing as well as for zander fishing or trout fishing over great distances at big ponds.

Art.-No.	Length m	CW g	Action	Closed L. cm	Sect.	Guides	Weight g
25-4040361	3.60	10-40	medium fast	125	3	13	265
25-4040391	3.90	10-40	medium fast	138	3	14	285

**APM 60 DISTANCE FLOAT**

FLOAT ROD | CW -60G

Universal powerful float rod for casting rigs up to 60g with fast tip and strong backbone for targeting large coarse fish and carps. The APM Distance Float 60 keeps the promises of its name: designed for long casts to act with float rigs on far remote spots. Even for fishing with large sbirolinos for large trouts and ponds this rod is the proper choice.

Art.-No.	Length m	CW g	Action	Closed L. cm	Sect.	Guides	Weight g
25-4060361	3.60	15-60	medium fast	125	3	13	270

## SPECILAND ULTRA FEEDER

### FEEDER ROD | XXH

Ultra-power feeder with up to 300g casting weight.

The perfect feeder rod for large streams like the river Rhine. The Speciland Ultra Feeder features a strong backbone and great power for the cast and fight.

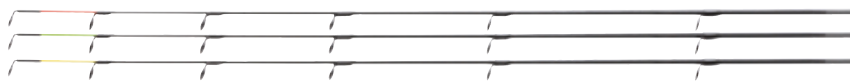

The sensitivity can be adjusted variably thanks to the 3 carbon fiber quiver tips with 3oz, 4oz and 5oz.

- SM20C carbon fiber blank
- High-quality cork / EVA grip
- SiC guides
- Cloth bag

Art.-No.	Length m	CW g	Action	Closed L. cm	Sect.	Guides	Weight g

## DISTANCE MATCH

MATCH ROD | CW -25G

Modern technology, modern design.

The newly revised Distance Match carbon fiber rod series is characterized by an excellent price-performance ratio. With its fast action and powerful backbone, it can also cast bigger wagglers over great distances very precisely. Also perfectly suited for trout fishing at the pond.

- SM24 carbon fiber blank
- High-quality cork / EVA grip
- SIC guides
- Cloth bag

Catfish Rods

# BIG CAT

## BIG CAT PRO

Tough, indestructible and featuring a perfect bending curve.

Made of high-density carbon fiber composite. This is the material from we produce the high-density blanks of our catfish rods, which are capable of standing up against every large catfish during the fight thanks to their fast reaction, regardless if you have to react to whiplike shocks from the tail or fierce flights. The pressure you can exert on large catfish with these rods is huge.

- High-density composite carbon fiber blank
- Reliable spigot joint
- EVA grip (camouflage design)
- Heavy-duty reel seat
- SiC guides

**SEACOR HALIBUT HDC INTERLINE**

INLINE BOAT ROD | XXH | XXXH

If something big is lying in wait for your lure in the depth of Norway's fjords, you are perfectly armed with a Halibut HDC Interline rod.

The Halibut HDC Interline rods are uncompromisingly strong and resist powerfully, when a big sea predator tries to escape. They are made for fighting by hook or crook.

Thanks to the long tip, which is directly mounted at the handle section, the center of strain is located very low, which allows transmitting of the whole force to the rod. Despite their pure power, these rods are extraordinary sensitive, feature a very delicate bite detection and therefore cover nearly the whole range of heavy fishing in the Norwegian fjords, regardless if you target halibut, ling, cod or wolffish.

Equipped with premium screw-winch reel seat and gimbal buttcap.

- HDG composite blank
- Reliable spigot joint
- Solid EVA grip
- Heavy-duty reel seat
- Gimbal butt cap
- Cloth bag

## CORASTRONG 8-BRAID

BRAIDED LINE | GREEN

### The CoraStrong 8-Braid – made of Micro Coramid

No matter where you are fishing, which kind of fish you are targeting or which fishing technique you prefer – with the CoraStrong 8-Braid on your spool you are always on the safe side and can enjoy a line with optimal casting properties due to its tight, smooth braid structure and the exact calibration over the whole length. The CoraStrong 8-Braid is a real high-tech line with an incredible price-performance ratio.

#### Advantage 1: Optimum casting properties due to ...

- the smooth, optimal braid structure – the 8-Braid glides evenly through the guides
- the special coating – reduces friction
- the thin line diameter – less vulnerable at crosswind
- a tight braid structure – no carving in
- absorbs no water – structure remains
- exact calibration over the whole length
- reduced memory-effect – no coiling

#### Advantage 2: Optimal bite detection due to ...

- the slim line diameter – perfect at currents
- little stretch – also softest taps are transmitted

#### Advantage 3: Improved safety during cast and fight due to ...

- the enormous strength – more than enough
- the optimal ratio of diameter and linear strength
- the excellent knot strength
- little stretch – thus faster and more precise hooking
- the high abrasion resistance – ideal for demanding conditions
- UV resistance – resists also intense sun exposure
- the long lifespan – leads to safety

## CORASTRONG BRAID

BRAIDED LINE | GREEN

### 25 years CoraStrong – braided of Coramid

With the anniversary CoraStrong CORMORAN has improved a legend among all fishing lines regarding many features. Like this, a real high-performance line has been designed which is excelled by its fantastic price-performance ratio as well as its technical features.

Art.-No.	Color	Capacity m	Ø mm	Strength kg	Strength lb
32-0013512	green	135	0.12	6.40	14.0
32-0013514	green	135	0.14	7.40	16.2
32-0013516	green	135	0.16	8.50	18.7
32-0013518	green	135	0.18	9.80	21.5

32-0013523	green	135	0.23	13.50	29.7
32-0013525	green	135	0.25	14.30	31.4
32-0013528	green	135	0.28	18.20	40.0
32-0013530	green	135	0.30	21.00	46.1

**Markedly improved casting characteristics thanks to ...**

- smooth, optimal braid structure – glides easily through the guides
- tight braid – no cutting in
- most minimal water absorbance – the structure remains unchanged
- even winding thanks to exact calibration over the whole length
- reduced memory effect – no curls after rewinding the line to the spool

**Markedly improved security at the cast and the fight thanks to ...**

- high linear strength – optimum relation of diameter to breaking strength
- Outstanding knot strength
- negligible stretch for a fast and precise setting of the hook
- extreme abrasion resistance – perfect for waters with underwater barriers
- UV-proof – even intense sun exposition is no problem
- long durability – no need to check the line all the time

**COR F6 | 70MM**

LONG DISTANCE PLUG | FLOATING | UP TO 0.8M DIVING DEPTH

Universal longcasting plug for all predators, which cuts a fine figure at the lake as well as at currents. The COR F6 can be presented with all modern styles and is even successful at slow, steady retrieving.

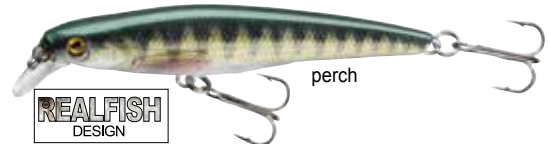

Art.-No.	Color	Length cm	Weight g	Content pc.
53-04701	baby brown trout	7.0	4.0	1

## LURES

**COR F14 | 45MM**

MINI CRANKBAIT | FLOATING | UP TO 1.2M DIVING DEPTH

This small, relatively heavy Belly Dog Crank can't be overseen by a predator, especially because it produces enormous turbulences. Thanks to its well dosed buoyancy, it slowly rises to the surface during retrieving stops. The compact, spherical shape of the COR F14 enables extremely long and precise casts.

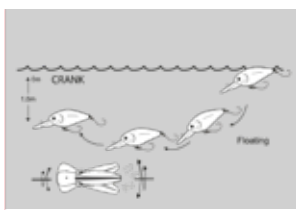

Art.-No.	Color	Length cm	Weight g	Content pc.
53-04421	chocolate	4.5	7.1	1
53-04422	yellow pellet	4.5	7.1	1
53-04423	hot pink	4.5	7.1	1
53-04424	chartreuse/black	4.5	7.1	1

**COR F15 | 37MM**

MINI CRANKBAIT | FLOATING | UP TO 1.6M DIVING DEPTH

Small, compact deep-diving crank which can dupe even one or another zander next to trouts and perchers. The COR F15 is gaining depth really fast and is rising slowly and seductively to the surface during retrieving stops. Equipped with 2 single hooks for optimal sparing of the fish. This crank shouldn't be missing in any lure box.

Art.-No.	Color	Length cm	Weight g	Content pc.
53-04431	green pellet	3.7	4.5	1
53-04432	yellow/black	3.7	4.5	1

53-04434	brown minnow	3.7	4.5	1

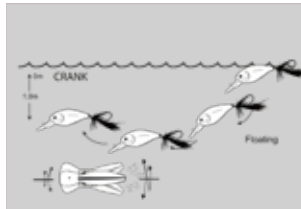

**LURES**

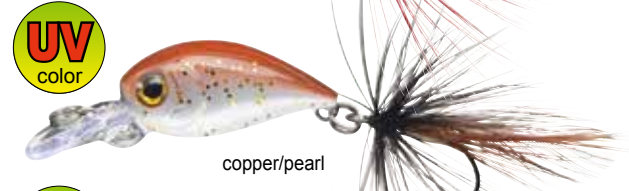

**COR F16 | 27MM**

MINI PLUG | FLOATING | UP TO 1.0M DIVING DEPTH

Mini plug for ultra-light fishing for trout, perch and chub. Despite its small size but thanks to its compact, bellied shape, the COR F16 can be cast long and precisely. Very active and variable presentation possible. Equipped with a single hook and a seductive feather.

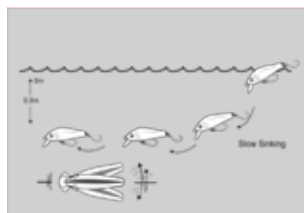

Art.-No.	Color	Length cm	Weight g	Content pc.
53-04441	yellow pellet	2.7	2.5	1
53-04442	green pellet	2.7	2.5	1
53-04443	copper pearl	2.7	2.5	1
53-04444	hot back	2.7	2.5	1

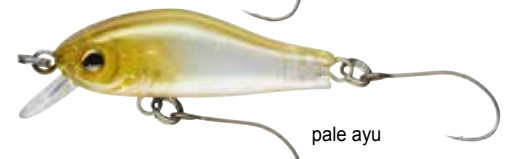

**COR SLS2 | 35MM**

MINI PLUG | SLOW SINKING | UP TO 0.8M DIVING DEPTH

Slowly sinking trout and perch plug with realistic body imitation of small bait fish. Suitable for silent waters and currents. Steady retrieving, changing speed and twitching in variable intervals – the COR SLS2 fits all.

Art.-No.	Color	Length cm	Weight g	Content pc.
53-04461	black head	3.5	2.0	1
53-04462	copper pearl	3.5	2.0	1

## LURES

### REALFISH DESIGN LURE SETS

## REALFISH DESIGN

Copying nature. Due to a special technique we succeeded in printing very realistic fish motives on the plugs, which in combination with the very lifelike action make these lures extraordinarily catchy. These plug sets have been especially composed for particular fields of application and fish species. Thanks to the selection of RealFish designs and the diverse actions many different fish species and water types can be targeted using these sets.

The RealFish Design plugs are equipped with sharp and durable trebles mounted on tough split rings.

#### „BABY BROWN TROUT DESIGN“ LURE SET

##### PLUG ASSORTMENT | BROWN TROUT DESIGN

3 plugs with RealFish design „baby brown trout“. Very catchy for perch, trout and chub as well as pike and zander in the warm season.

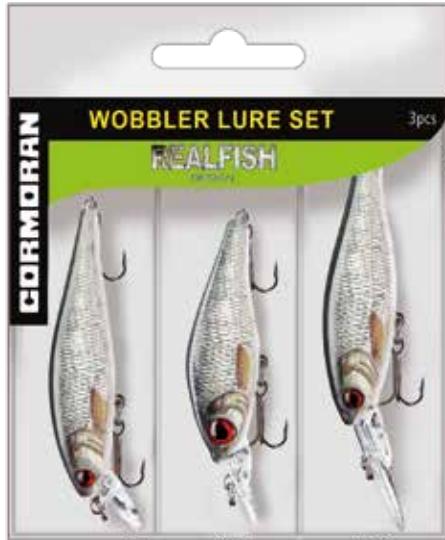

Art.-No.	Color	Lengths cm	Content Set pc.
53-00023	baby brown trout	5.0/5.5/6.5	3

#### „PERCH DESIGN“ LURE SET

##### PLUG ASSORTMENT | PERCH DESIGN

3 plugs with RealFish design „perch“. You can fish for every predator with these plugs in silent waters as well as currents.

Art.-No.	Color	Lengths cm	Content Set pc.
53-00026	perch	5.5/7.0/7.8	3

**„ROACH DESIGN“ LURE SET**

PLUG ASSORTMENT | ROACH DESIGN

3 plugs with RealFish design „roach“.  
Universal plugs for all situations and nearly all predators.

Art.-No.	Color	Lengths cm	Content Set pc.
53-00027	roach	5.5/6.5/7.0	3

**„MIXED DESIGN“ LURE SET 1**

PLUG ASSORTMENT | REALFISH DESIGN MIX

3 diverse plugs with 3 different RealFish designs: dying roach, brown trout and perch.  
Universally applicable plugs for all fields of application and nearly all kind of predators, especially trout and perch.

Art.-No.	Color	Lengths cm	Content Set pc.
53-00028	color mix 1	3.5/4.0/4.5	3

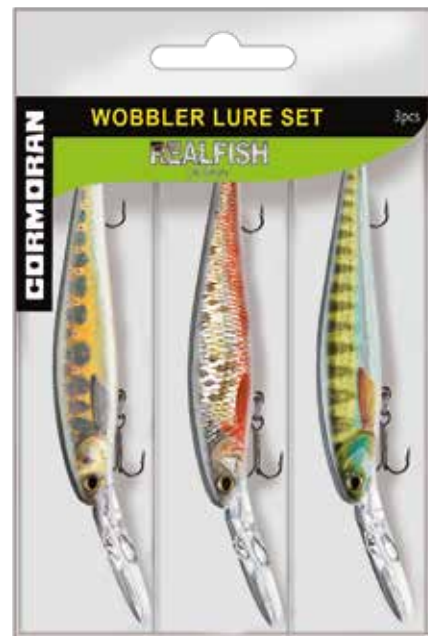

**„MIXED DESIGN“ LURE SET 2**

PLUG ASSORTMENT | REALFISH DESIGN MIX

3 identical floating all-round plugs with a diving depth of approx. 1.2m with 3 different RealFish designs: dying roach, brown trout and perch.  
Universally applicable plugs for all fields of application and nearly all kind of predators.

Art.-No.	Color	Lengths cm	Content Set pc.
53-00029	color mix 2	7.0/7.0/7.0	3

**„MIXED DESIGN“ LURE SET 3**

PLUG ASSORTMENT | REALFISH DESIGN MIX

3 identical floating deep runners with a diving depth of approx. 3.0m with 3 different RealFish designs: dying roach, brown trout and perch.  
Universally applicable plugs, especially for silent waters and all big predators like zander and especially pike.

Art.-No.	Color	Lengths cm	Content Set pc.
53-00030	color mix 3	9.0/9.0/9.0	3

**BULLET**

**SPINNER**

Despite the range of plugs and plastic lures, spinners are still very popular. CORMORAN Bullet spinners are very well-balanced, rotate even at slow retrieving and are equipped with sharp, resistant trebles.

- Hook: CGS treble hook
- Waters: silent & current waters

# PREDATOR FISHING

## BULLET SINGLE

### SPINNER | WITH SINGLE HOOK

The most common CORMORAN spinners are also available with single hook.  
Especially for light fishing in trout ponds and streams.  
Also ideal for fishing for perch and chub.

- Hook: CGS single hook
- Waters: silent & current waters

## BOOMS

Still one of the most used accessories for carp and feeder fishing. Of course these booms are also applicable for normal ground fishing

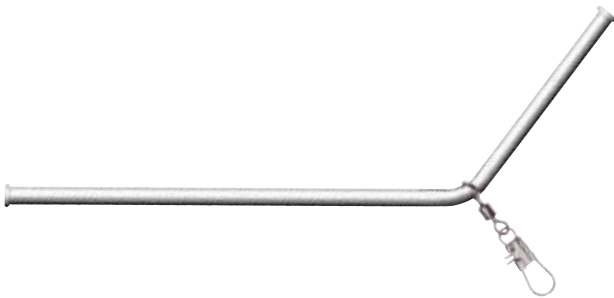

### FLEXI FEEDER BOOM

CURVED | WITH 360° SWIVEL

Flexible, curved Anti-Tangle Boom with swivel, which is rigged rotatable in all directions.

Art.-No.	Color	Length cm	Type	Content pc.
49-52013	sand	13.0	curved	2

### METAL ANTI-TANGLE BOOM

CURVED | WITH SWIVEL

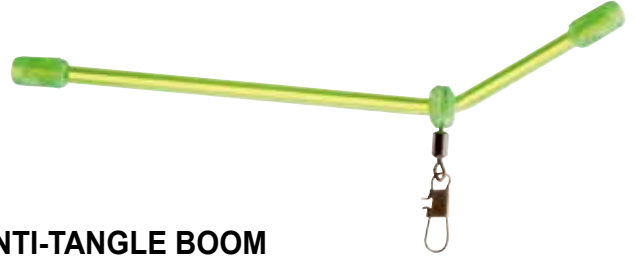

Strong, curved Anti-Tangle Boom with swivel.

Art.-No.	Color	Length cm	Type	Content pc.
49-52412	silver	12.0	curved	3

### PRO CARP RIGBOX

Specially developed for straight storage of approx. 15 carp rigs. Fast and secure handling. With 2 separate mini boxes, where bait needles and hooks can be stored.

Art.-No.	Size cm	Content pc.
11-10104	34.5x9x2.6	1

### ANTI-TANGLE BOOM

CURVED | WITH SWIVEL

Made of plastic, with swivel.

Art.-No.	Color	Length cm	Type	Content pc.
48-51110	green	10.0	curved	3
48-51112	green	12.0	curved	3

### ANTI-TANGLE BOOM

CURVED | WITH SNAP

Universal, curved Anti-Tangle Boom for ground, feeder and carp fishing. With line-protecting butt caps.

Art.-No.	Color	Length cm	Type	Content pc.
49-53105	black	5.0	curved	3
49-53110	black	10.0	curved	3
49-53115	black	15.0	curved	3
49-53125	black	25.0	curved	3

Delivered without rigs.

**HAIR RIGS**

**PRO CARP CLASSIC BOILIE RIG**

WITH CARP HOOK T4 (TEFLON COATED)

Extremely wide field of application – nearly every carp bait can be mounted to the Classic Rig. Due to the mounted Rolling Swivel, this rig can be fished with an inline lead as well as with a Safety Clip. The sinking leader material is nearly invisible for carps under water.

Art.-No.	Rig Length cm	Hook Size	Strength lb	Content pc.
11-02300-1	18.0	1	25	2
11-02300-2	18.0	2	25	2
11-02300-4	18.0	4	25	2
11-02300-6	18.0	6	25	2

**PRO CARP HIGH ABRASION RIG**

WITH CARP HOOK T4 (TEFLON COATED)

If you are confronted with many mussels, plants or branches in the water, this rig is exactly what you need. Due to the high abrasion resistance you retain the complete breaking strength even in difficult situations. Also perfectly suitable for fishing in currents.

Art.-No.	Rig Length cm	Hook Size	Strength lb	Content pc.
11-02302-1	18.0	1	35	2
11-02302-2	18.0	2	35	2
11-02302-4	18.0	4	35	2
11-02302-6	18.0	6	35	2

**PRO CARP LINE ALIGNER RIG**

WITH CARP HOOK T3 (TEFLON COATED)

The line aligner rig provides an unique hook feature. Due to the downward shaped shrink tube it is difficult for the carp to spit out the absorbed bait and hook. Use boilies, pop-ups, pellets and particles with this rig.

Art.-No.	Rig Length cm	Hook Size	Strength lb	Content pc.
11-02301-1	18.0	1	25	2
11-02301-2	18.0	2	25	2
11-02301-4	18.0	4	25	2
11-02301-6	18.0	6	25	2

**PRO CARP CLASSIC RIG**

WITH CARP HOOK T4 (TEFLON COATED)

A classical rig, combined with a modern absorption at the main line. More and more popular with quick-change swivel. Changing the rig because of an blunt hook or another bait is possible as fast as never before. The leader and the hook are fitting with nearly all kinds of waters and baits.

Art.-No.	Rig Length cm	Hook Size	Strength lb	Content pc.
11-02303-1	18.0	1	25	2
11-02303-2	18.0	2	25	2
11-02303-4	18.0	4	25	2
11-02303-6	18.0	6	25	2

**PRO CARP COMBI RIG**

WITH CARP HOOK T6 (TEFLON COATED)

The Combi Rig combines stiffness for the cast and natural behavior of the bait. The fluorocarbon material prevents the rig from rolling over and is nearly invisible under water. The used soft leader material ensures an easy sucking of the bait. With to the installation of a Tungsten Putty on the leader you get an excellent pop-up rig.

Art.-No.	Rig Length cm	Hook Size	Strength lb	Content pc.
11-02305-2	19.0	2	25	2
11-02305-4	19.0	4	25	2
11-02305-6	19.0	6	25	2

**PRO CARP CLASSIC BOILIE RIG ST**

WITH CARP HOOK T4 (TEFLON COATED)

Completely protected knots and an extremely good hooking rate are ensured by the used shrink tubes. The leader and the hook are suitable for all water types. The swivel size matches all common safety clips and inline leads.

Art.-No.	Hook Size	Strength lb	Content pc.
11-02320-2	2	35	2
11-02320-4	4	25	2
11-02320-6	6	25	2

**PRO CARP POP-UP BOILIE RIG**

WITH CARP HOOK T2 (TEFLON COATED)

This rig is perfectly suitable if a swimming boilie is necessary. The long leg of the used T2 hook guarantees a natural movement of the bait under water and can be soaked in by the carp easily. Due to the additional Pro Carp Tungsten Putty you can adjust the pop-up's height above the ground.

Art.-No.	Rig Length cm	Hook Size	Strength lb	Content pc.
11-02306-2	19.0	2	25	2
11-02306-4	19.0	4	25	2
11-02306-6	19.0	6	25	2

**PRO CARP COATED RIG ST**

WITH CARP HOOK T6 (TEFLON COATED)

Coated rigs have been proven to represent the ultimate choice for pop-up rigs. Just mount a small amount of Tungsten at the spot between hard and soft material and floating boilies are presented right above the ground. Like this the hook bait is somewhat highlighted from the ground bait and gets sucked in instantly from curious carps. Due to the extremely supple tip, also cautious fishes don't feel any resistance at sucking of the bait. The swivel size matches all common safety clips and inline leads.

Art.-No.	Hook Size	Strength lb	Content pc.
11-02323-2	2	35	2
11-02323-4	4	25	2
11-02323-6	6	25	2

## BIG TROUT SBIROLINO

### FLOATING

Classical sbirolino for active surface fishing. The milky-clear body avoids dazzling and is hard to recognize for the fishes.

## NITRO BAITFORMER

### DOUGH FORMER

With the BaitFormer the trout dough can be formed easily, quickly and ideally.

- Form the dough portion around the hook
- Put the dough in the mould
- Close the BaitFormer
- Open the BaitFormer and take the shaped dough out of the BaitFormer

**MAGMIX GROUNDBAIT MIXES**

The Magmix bait mixtures have been developed by specialists of the international competition scene and are specially designed for the requested target fish respectively fishing method. The feed is very active in the water and attracts fish even from great distances to the feeding place.

The Magmix's combination of feeding stimulating attractors and little satiating, chipped particles and superior meals makes the fish search actively for feed and stay longer in the fishing area.

**Preparation:**  
Mix the feed in short terms, 3-4 times within 15-20 minutes, with small amounts of water and let it soak. Then push it through a sieve. Adding maggots, casters and worms makes it even more catchy. Keep in a cool and dry place! Minimum durability: 12 month

**MAGMIX CORN PELLETS**

GROUNDBAIT

Corn pellets made of sweet, roasted corn can be fed with a catapult or by hand around the hook bait. These pellets dissolve in water very quickly and transmit the very attractive scent of roasted corn directly to the water. Thereby the pellets resolve into smallest particles, that can not satiate the attracted fish.

## CORLOCK SNAPS AND SWIVELS

Strong and reliable snap made of spring steel, which can easily be opened and closed also with wet fingers.

Original size

### Symmetric design for a perfect balance

The extra-wide curve cares for an optimal lure action.

Fitting for all lures

Super strong and reliable lock. Easy to operate

Narrow curve to the swivel, leader loop knot or main line to keep the knot in a centered position

## CORLOCK SWIVEL

The Corlock swivels have been developed for specialists, who need to rely on their swivel in every situation.

## CORLOCK SNAP

Especially designed for spin fishing. The extra-wide curve considerably supports the lure action.

75-27121	brown	50.0	1/0	12.0	1

## PREDATOR LEADERS

### Titanium Leaders „Single Strand“

When a normal wire leader does not satisfy your demands, lacks the necessary flexibility or gets kinks too fast, when it features less linear strength than desired or simply is not slim enough, you should try the „Single Strand“ titanium predator leaders. We promise a wonderful fishing experience and a safe fight with the fish.

- High linear strength compared to its diameter
- Optimal stiffness – perfect for fishing with jerkbaits or trolling
- Slim diameter

## 1X1 TITANIUM LEADER

WITH SWIVEL AND SNAP

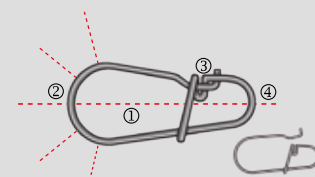

Equipped with swivel and Corlock snap with wide curve for optimal lure action.

Art.-No.	Rig Length cm	Strength kg	Content pc.
75-84308	20.0	8.0	2
75-84312	20.0	12.0	2

75-84412	30.0	12.0	2
75-84418	30.0	18.0	1

### CORLOCK KARABINER

Our titanium, 7x7 and 1x19 leaders are all together equipped with the Corlock snaps.

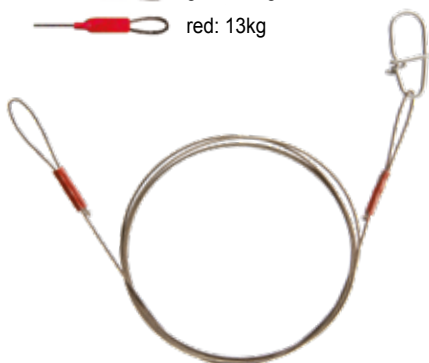

1. Symmetric design for a perfect balance
2. The extra-wide curve cares for an optimal lure action. Fitting for all lures
3. Super strong and reliable lock. Easy to operate
4. Narrow curve to the swivel, leader loop knot or main line to keep the knot in a centered position

### 7x7 Wire Leaders

49 single steel strands are braided to an especially soft and flexible leader material, which is excelled by a very high linear strength. Especially small lures as mini plugs, spinners, spoons or jigs benefit from this extremely flexible steel wire.

- blue: 6kg
- green: 9kg
- red: 13kg

## 7X7 WIRE LEADER

WITH SWIVEL AND SNAP

Equipped with swivel and the Corlock snap. The perfect leader for spin fishing. The wide curve cares for an optimal lure action.

### 1x19 Wire Leaders

Especially developed for fishing for zander and pike. Very flexible and with reduced scaring effect thanks to the inconspicuous brown color.

### 1X19 ASSIST HOOK

WITH TREBLE HOOK

Indispensable assist hook for fishing with soft plastic lures. Optimal combination of length, diameter and hook size and equipped with one strong CGS treble. These assist hooks do not impair the lure action at all but increase the hooking rate dramatically.

### BAIT NEEDLE M|1000-5

EXTRA-STRONG

Strong bait needle with movable eye.

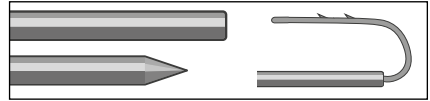

Art.-No.	Length cm	Content pc.
83-10005	20.0	2

### WORM NEEDLE M|1000-1

Ideal worm needle for putting the worm on the hook.

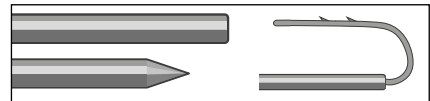

Art.-No.	Length cm	Content pc.
83-10001	12.0	2

### LUGWORM NEEDLE M|1001-2

Special lugworm needle made of brass.

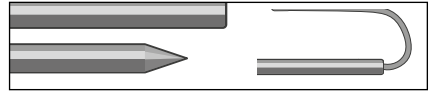

Art.-No.	Length cm	Content pc.
83-10012	25.0	2

### LUGWORM NEEDLE M|1001-3

Lugworm needle in top quality made of stainless steel.

Art.-No.	Length cm	Content pc.
83-10013	32.0	2

### PRIEST M|1400-2

Priest with heavy brass head and a practical knife blade and a descaler - that can be integrated into the priest for transportation.

Art.-No.	Length cm	Weight g	Content pc.
83-14002	19.5	210	1

**FISHING EQUIPMENT**

**SMOKING OVEN**

With this smoker up to 6 trouts can be smoked simultaneously on 2 trays. 2 large burning pots distribute the heat equally and constantly. The lid is sealed.

Art.-No.	Size cm	Content pc.
68-10000	42x26x13	1

**SMOKING OVEN**

XL-SIZE

3 large burning pots distribute the heat equally and constantly. The lid is sealed.

Art.-No.	Size	Size cm	Content pc.
68-10005	XL	50x26x12	1

**BIG FISH SCALE M|2600**

WEIGHING RANGE UP TO 100KG

Mechanical big fish scale in extremely stable design.

Art.-No.	Weighing Area (max.) kg	Content pc.
85-52600	100	1

**AERATION PUMP M|40006**

High-performance aeration pump with 2 speeds:

Speed "H"

- Pumping performance 1.0l/min
- Battery life: 25 hours

Speed "L"

- Pumping performance 0.8l/min
- Battery life: 48 hours

Battery type: 1x type „D“-1.5V (Battery not included in delivery)

Art.-No.	Content pc.
85-40006	1

## FISHING EQUIPMENT

### SPLITRING PLIERS M|1100-1

STRAIGHT

Compact and strong fishing pliers with split ring function – made of premium carbon steel. Easy to use thanks to the built-in blocking spring. Can be applied universally for cutting leaders and lines, detaching hooks and for crimping wire leaders.

Equipped with anti-slip handle.

Art.-No.	Length cm	Content pc.
84-11001	16.5	1

### UNHOOKING PLIERS M|1100-2

M-SIZE | CURVED

Very strong pliers with powerful, curved jaws made of premium carbon steel. Easy to use thanks to the built-in blocking spring. Can be applied universally for cutting leaders and lines, detaching hooks and for crimping wire leaders.

Equipped with anti-slip handle.

Art.-No.	Length cm	Size	Content pc.
84-11002	16.0	M	1

### UNHOOKING PLIERS M|1100-4

L-SIZE | CURVED

Slim and handy all-round fishing pliers for gentle unhooking – made of premium carbon steel. Can be applied universally for cutting leaders and lines, detaching hooks and for crimping wire leaders.

Equipped with anti-slip handle.

Art.-No.	Length cm	Size	Content pc.
84-11004	17.5	L	1

### HOOK REMOVER PLIERS M|1001

CURVED

Unhooking pliers made of stainless steel - excellent quality.

Art.-No.	Length cm	Content pc.
84-10016	16.0	1
84-10019	19.0	1

### FISHING SCISSORS M|1010-5

Perfectly made for braided and mono lines. Small and handy.

Art.-No.
84-10105

### HOOK REMOVER PLIERS M|1001

STRAIGHT

Unhooking pliers made of stainless steel - excellent quality.

Art.-No.	Length cm	Content pc.
84-10015	15.0	1
84-10018	18.0	1

### FILLETING KNIFE M|1300-7

Special, handy filleting knife with wide, flexible and sharp blade.

Equipped with ergonomic safety handle. Blade length: 16cm Total length: 28.5cm

Art.-No.	Length cm	Blade L. cm
82-13007	28.5	16.0

**FILLETING KNIFE M|1300-1**

Filleting set with very handy, compact filleting knife and sharpener.

Blade length: 15cm  
Total length: 28cm

Art.-No.	Length cm	Blade L. cm	Content pc.
82-13001	28.0	15.0	1

**FISHING KNIFE M|1300-2**

Very robust, sharp fishing knife.

Equipped with ergonomic anti-slip handle.  
Blade length: 10cm  
Total length: 21.5cm

Art.-No.	Length cm	Blade L. cm	Content pc.
82-13002	21.5	10.0	1

82-13006	21.0	9.5

**CORMORAN®**

TEAM CORMORAN  
FILLETING KNIFE M|1224-0

Handy filleting knife with plastic knife sheath.

Art.-No.	Length cm	Blade L. cm
82-12240	28.0	15.0

**CORMORAN®**

TEAM CORMORAN  
FILLETING SET M|1100-0

De Luxe filleting set with filleting knife, sharpener and filleting glove in professional quality.

Art.-No.	Content Set pc.
82-11000	3

**Functions of right button**

High beam: maximum light output

Low beam: half light output

Flashing function

Permanent red light

Red light flashing

**Functions of left button**

Push left button 2x: headlamp is switched off

Automatic function activated

On/Off via swiping

**I-COR 1 HEADLAMP**

**DUST AND WATERPROOF (IPX4)**

The i-COR 1 headlamp is a variable lamp, every angler needs in many situations. At twilight or darkness, the i-COR 1 changes the night into day and you have everything under control.

The i-COR 1 is very robust, water-proof (IPX4 standard) and dust-proof lamp, with a fitting function for every kind of situation. For frequent use at the water, it is very lightweight and compact as well as comfortable to wear. It is operated via two buttons.

The i-COR 1 is equipped with a powerful (80 lumen) XPE LED and two red LEDs and an automatic function which can be controlled via swiping with the hand.

Battery type: 3x type AAA-LR03  
(Batteries not included in delivery)

Art.-No.	Content pc.
85-45201	1

High beam: maximum light output with 4 powered LEDs

Low beam: half light output with two powered LEDs

Permanent red light

**I-COR 3 HEADLAMP**

The i-COR 3 headlamp is very inexpensive but robust and features all functions, you need at fishing. Equipped with 4 white and 2 red LEDs, which enable a permanent red light.

The i-COR 3 is shaped ergonomically and very comfortable to wear.

Battery type: 3x type AAA-LR03  
(Batteries not included in delivery)

Battery type: 3x type AAA-LR03

Battery type: 3x type AAA-LR03

Art.-No.	Content pc.
85-45203	1

**DIGITAL SCALE M|5260-1**

**WEIGHING RANGE UP TO 25KG**

Small handy fish scale up to 25kg. You can chose between kg and lbs.

Disconnects automatically after 60 seconds.

Battery type: 1x type CR 2032  
(Battery not included in delivery)

Art.-No.	Weighing Area (max.) kg	Content pc.

# BITE INDICATORS & ROD RESTS

## PRO CARP WIRELESS BITE INDICATOR F-8000 | 3+1

### COMPLETE SET | 3 BITE INDICATORS & RECEIVER

Wireless bite indicator with each adjustable sensitivity, volume and tone pitch.

The receiver is adjusted with the indicator settings both regarding sound and light. The tone pitch is automatically transmitted from the bite indicators while the volume of the receiver can be adjusted manually.

Drop backs and runs are as well displayed differently in sound and light via the power indicator and the LED bar, which also reflects the sensitivity setting.

With adjustable nightlight and mute function and furthermore completely sealed electronic components, making this bite indicators totally waterproof.

#### Technological features

##### Bite indicator

- Integrated wireless transmitter
- Sensitivity control
- Premium speakers
- Adjustable volume with integrated on-off switch
- Mute button switches volume to zero
- Adjustable tone pitch
- Combi LED light serves as power indicator and differently displays drop backs and runs with 20 sec. afterglow
- Combi LED light in red, blue and green
- LED bar as interval display (drop backs and runs are displayed differently), glowing in red
- Nightlight separately adjustable
- Soft touch finish
- Power out socket
- Separated battery compartment
- Connection for 9V monobloc battery

##### Receiver

- Displays up to 4 indicators
- On-off switch
- Adjustable volume
- Tone pitch is taken over from indicators
- Soft touch finish
- Separated battery compartment
- Connection for 2x AAA-1.5V batteries

**Pro Carp F-8000 Complete Set**  
3 bite indicators, 1 receiver and one matching receiver base are delivered in a practical suitcase. (Batteries not included in delivery)

Run

Drop back

The LED bar differently displays runs and drop backs (run: top down, drop back: bottom up) and reflects the previously adjusted sensitivity.

The volume can be switched off by the mute button. After 30 seconds it automatically is switched on again in the previous intensity.

The nightlight can be turned off and on manually

The 3 bite indicators of the set glow in red, blue and green

The nightlight glows in white

Adjustable volume with integrated on-off switch

Adjustable tone pitch – taken over by the receiver

Adjustable sensitivity control, displayed by the LED bar

Separate battery compartment for a 9V battery

Art.-No.	Color LED	Content Set pc.
11-80799	red/blue/green	3+1

## PRO CARP WIRELESS BITE INDICATOR F-4000

Professional wireless bite indicator complete set with adjustable sensitivity, volume and tone pitch. The receiver tone is matched with the indicator regarding both sound and light – the tone pitch is automatically transmitted from the bite indicators while the volume of the receiver can be adjusted manually. Drop backs and runs are displayed differently in sound and light via the power indicator LED and the LED bar, which also reflects the sensitivity setting. With adjustable nightlight function (integrated at the wheel) and mute function. Bite indicator and receiver can be switched on and off via push button. Thanks to the completely sealed electronics the bite indicator is perfectly water-protected.

### Technological features

#### Bite indicator

- Integrated transmitter
- Sensitivity control
- High-performance speakers
- Adjustable volume – can be reduced to zero
- Mute button shifts volume to zero
- Adjustable tone pitch
- On-off switch
- LED light serves as power indicator / 20 sec. afterglow
- LED light in red, blue, green and yellow, depending on set
- LED bar as bite interval display (drop backs and runs are displayed differently), glowing in red
- Nightlight separately adjustable
- Soft touch finish
- Power out socket
- Separated battery compartment
- Connection for 9V battery

#### Receiver

- Displays up to 4 indicators
- On-off switch
- Adjustable volume
- High-performance speakers
- Tone pitch is taken over from indicators
- Soft touch finish
- Separate battery compartment
- Connection for 3x AAA-1.5V batteries

Run

Drop back

The LED bar indicates runs and drop backs differently (run: top down, drop back: bottom up) and reflects the previously adjusted sensitivity.

(Batteries not included in delivery)

**S** Adjustable sensitivity control – displayed via the LED bar

**T** Adjustable tone pitch – taken over from receiver

Integrated nightlight

Power indicator with 20 sec. afterglow  
Run: constant light  
Drop back: flashing light

The volume can be switched off by the mute button. After 30 seconds it automatically is switched on again in the previous intensity.

**V** Adjustable volume

Press button 3 sec. – bite indicator turns on and off.

Press button 1 sec. – nightlight turns on and off.

Separate battery compartment for a 9V battery

## PRO CARP WIRELESS BITE INDICATOR F-2000

Super affordable wireless bite indicator complete set with adjustable sensitivity, volume and tone pitch. The receiver tone is matched with the indicator regarding both sound and light - the tone pitch is automatically transmitted from the bite indicators while the volume of the receiver can be adjusted manually. The combi LED light serves as bite indicator and power indicator. With 20 seconds afterglow and adjustable nightlight function at the wheel. Bite indicator and receiver can be switched on and off via push button. Thanks to the completely sealed electronics the bite indicator is perfectly water-protected.

#### Technological features

##### Bite indicator

- Integrated transmitter
- Sensitivity control
- High-performance speakers
- On-off switch
- Adjustable volume & can be reduced to zero
- Adjustable tone pitch
- Combi LED light serves as bite interval indicator and power indicator / 20 sec. afterglow
- Combi LED light in red, blue, green and yellow, depending on set
- Nightlight separately adjustable
- Soft touch finish
- Power out socket
- Separate battery compartment
- Connection for 9V battery

##### Receiver

- Displays up to 4 indicators
- On-off switch
- Adjustable volume
- High-performance speakers
- Tone pitch is taken over from indicators
- Soft touch finish
- Separate battery compartment
- Connection for 3x AAA-1.5V batteries

(Batteries not included in delivery)

**S** Adjustable sensitivity control

**T** Adjustable tone pitch – taken over from receiver

**9V** Separate battery compartment for a 9V battery

**V** Adjustable volume

Press button 3 sec. – bite indicator turns on and off.

Press button 1 sec. – nightlight turns on and off.

## PRO CARP BITE INDICATOR X-8000

### Technological features

#### Bite indicator

- Sensitivity control
- Premium speakers
- Adjustable volume with integrated on-off switch
- Adjustable tone pitch
- Combi LED light (4 colors adjustable via button) serves as bite interval indicator and power indicator / 20 sec. afterglow
- LED bar as interval display (drop backs and runs differently), glowing red
- Nightlight separately adjustable
- Soft touch finish
- Power out socket
- Separated battery compartment
- Connection for 9V battery

Art.-No.	Content pc.
11-80850	1

High-tech bite indicator with full equipment: adjustable sensitivity, volume and tone pitch. Drop backs and runs are displayed differently in sound and light via the power indicator (changeable color via button) and a LED bar, which also reflects the sensitivity setting. With adjustable nightlight function. Thanks to the completely sealed electronics the bite indicator is perfectly water-protected.

## PRO CARP BITE INDICATOR X-5000

Professional bite indicator with top equipment: adjustable sensitivity, volume and tone pitch. Drop backs and runs are displayed differently in sound and light via the LED bar, which also reflects the sensitivity setting. With adjustable nightlight function (integrated at the wheel) and mute function. Thanks to the completely sealed electronics the bite indicator is perfectly water-protected.

### Technological features

#### Bite indicator

- Sensitivity control
- High-performance speakers
- Adjustable volume, can be turned to zero
- Adjustable tone pitch
- On-off switch
- LED light serves as power indicator / 20 sec. afterglow
- LED bar serves as bite interval indicator (displays drop backs and runs differently), glowing red
- Nightlight can be switched on/off separately
- Mute button turns volume to zero
- High-performance speakers
- Soft touch finish
- Power out socket
- Separate battery compartment
- Connection for 9V battery

**3-REST ROD POD M|81004**

FOR 3 RODS | VARIABLY ADJUSTABLE

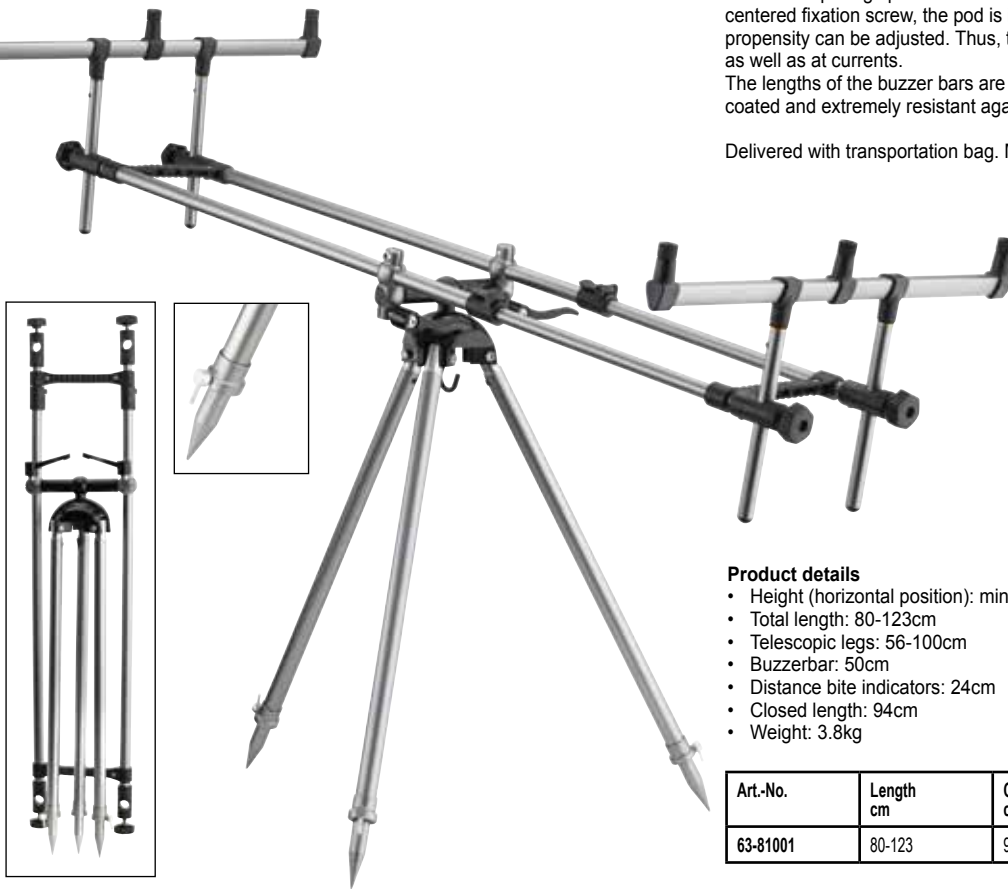

Art.-No.	Length cm	Closed L. cm	Weight kg
63-81004	80-130	81	2.0

The 3-Rest Rod Pod model 81004 is a very lightweight and solid pod, which can be installed quickly and is excelled by its high toughness. Due to the variable legs and feet, it adapts easily to different ground and is perfectly fitting all rod lengths. Delivered with 3 rod rests – the lengths of the buzzer bars are adjustable. The aluminum bars are specially coated and extremely resistant against impacts and shocks.

Delivered with transportation bag. Material transportation bag: polyester

## PRO CARP GUN POD M|81001

FOR 3 CARP RODS | SLOPE ADJUSTABLE

The sophisticated Pro Carp Gun Pod is designed for the use of 3 rods. The telescopic legs provide a safe base also on uneven ground. Thanks to the centered fixation screw, the pod is installed extremely fast and solid and the propensity can be adjusted. Thus, this pod is both suited for carp fishing at lakes as well as at currents. The lengths of the buzzer bars are adjustable. The aluminum bars are specially coated and extremely resistant against impacts and shocks.

Delivered with transportation bag. Material transportation bag: polyester

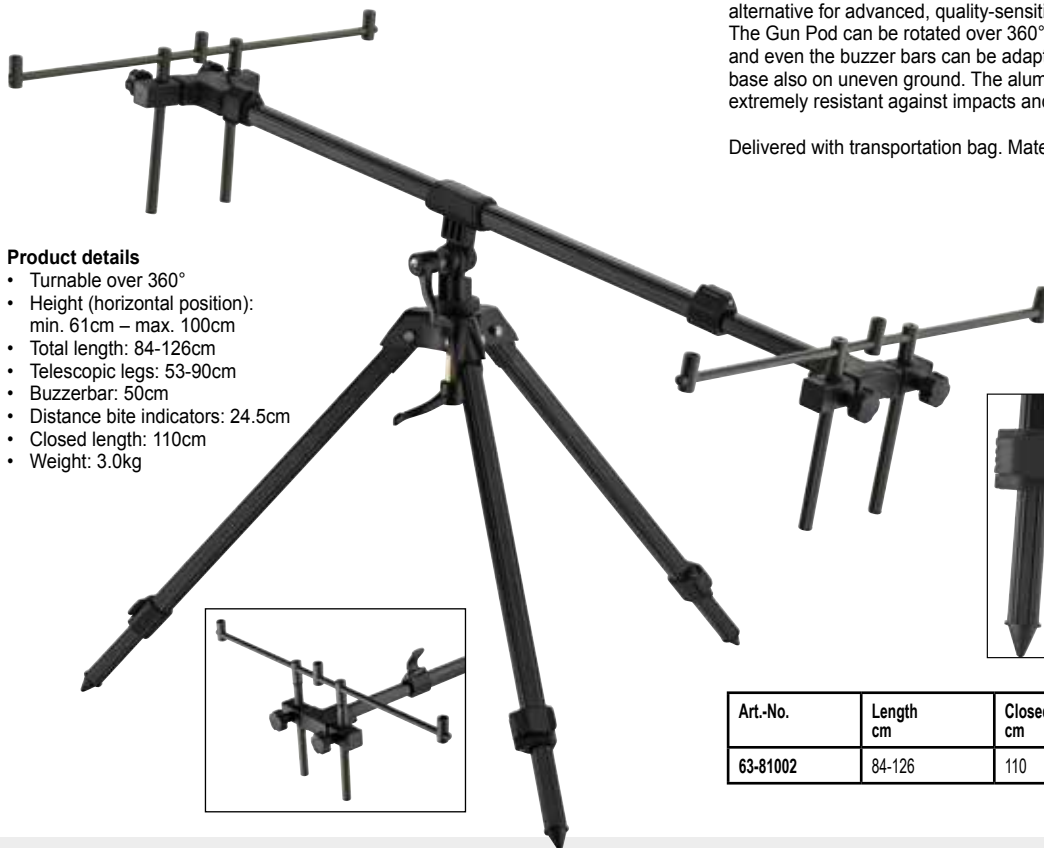

### Product details

- Height (horizontal position): min. 71cm – max. 123cm
- Total length: 80-123cm
- Telescopic legs: 56-100cm
- Buzzerbar: 50cm
- Distance bite indicators: 24cm
- Closed length: 94cm
- Weight: 3.8kg

Art.-No.	Length cm	Closed L. cm	Height cm	Weight kg
63-81001	80-123	94	71-123	3.8

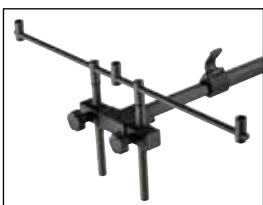

## GUN POD M|81002

FOR 3 RODS | 360° ROTATABLE | SLOPE ADJUSTABLE

### Product details

- Turnable over 360°
- Height (horizontal position): min. 61cm – max. 100cm
- Total length: 84-126cm
- Telescopic legs: 53-90cm
- Buzzerbar: 50cm
- Distance bite indicators: 24.5cm
- Closed length: 110cm
- Weight: 3.0kg

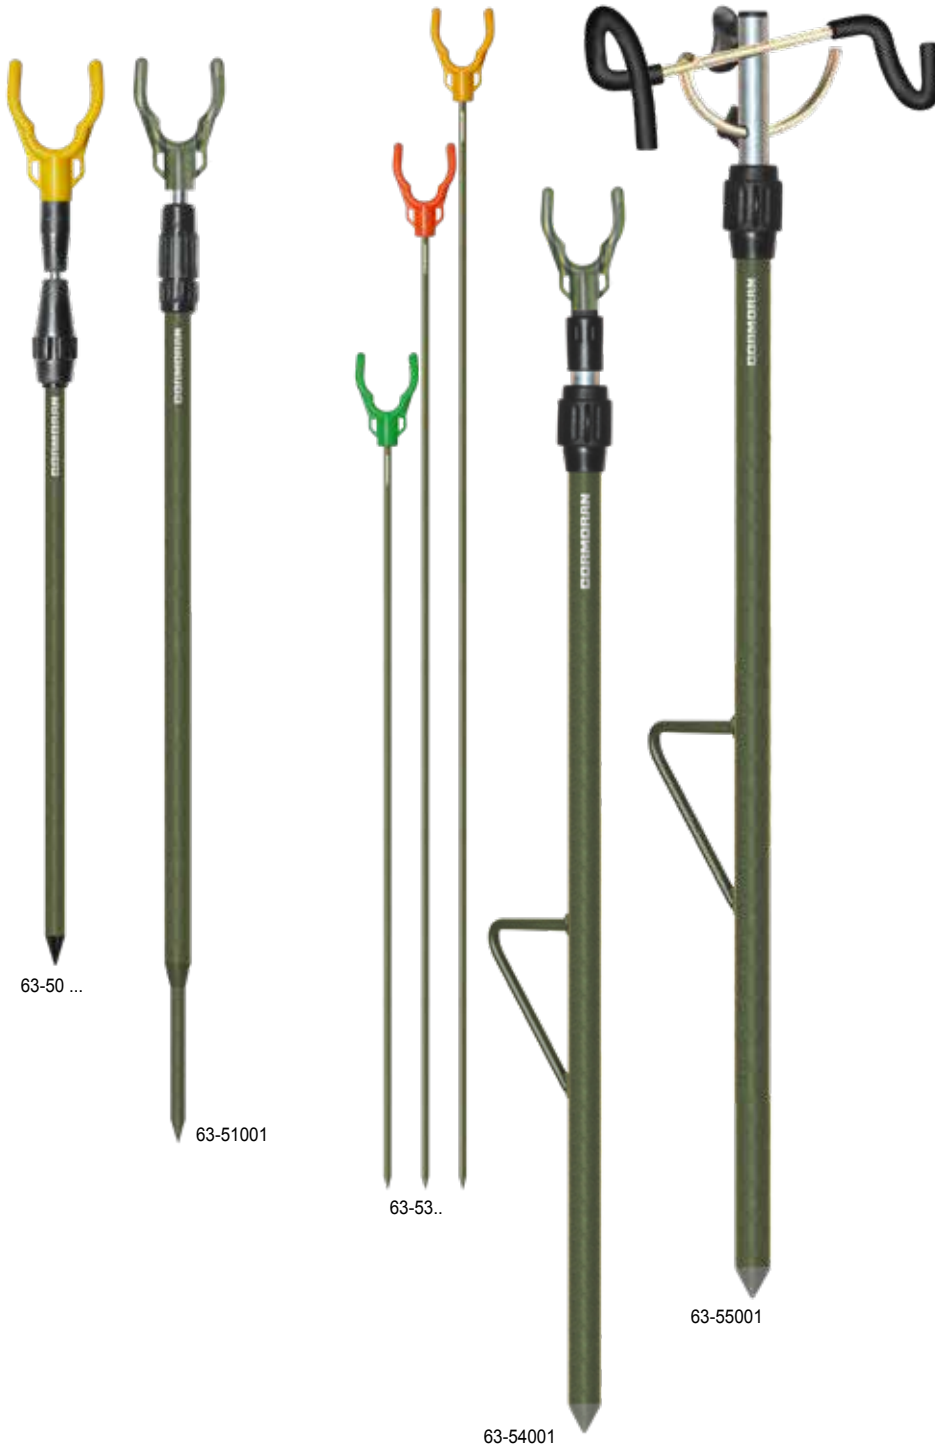

The Gun Pod model 81002 with 3 rod rests is more than a beginner's version for price-sensitive carp anglers – due to its design, quality and equipment, it is a real alternative for advanced, quality-sensitive anglers.

The Gun Pod can be rotated over 360°, the slope and the length are adjustable and even the buzzer bars can be adapted. The telescopic legs provide a safe base also on uneven ground. The aluminum bars are specially coated and extremely resistant against impacts and shocks.

Delivered with transportation bag. Material transportation bag: polyester

**BEACH POD X-TREME M|6310**

FOR 3 SURF RODS |  
WITH QUICK RELEASE FASTENER

This high-end tripod for 3 rods guarantees reliable stability and functionality even under rough weather conditions which delights even surf cast professionals. Thanks to its compact shape and its lightweight aluminum construction the transportation is very easy. The set-up is done fast and without problems. Thanks to quick snaps, the legs can be adjusted and secured easily. A hook is attached at the middle leg to be able to clip-in a sand bag for additional stabilization.

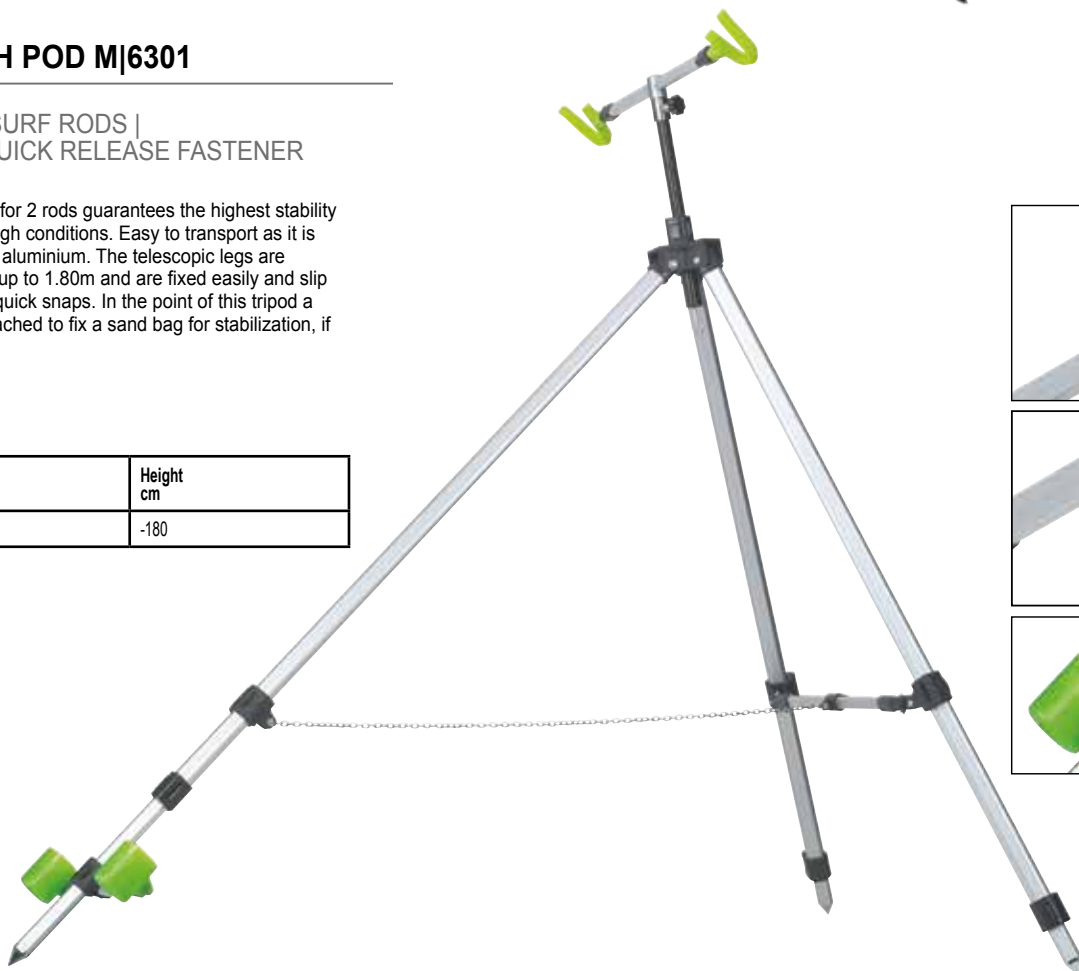

Art.-No.
63-10050

**BEACH POD M|6301**

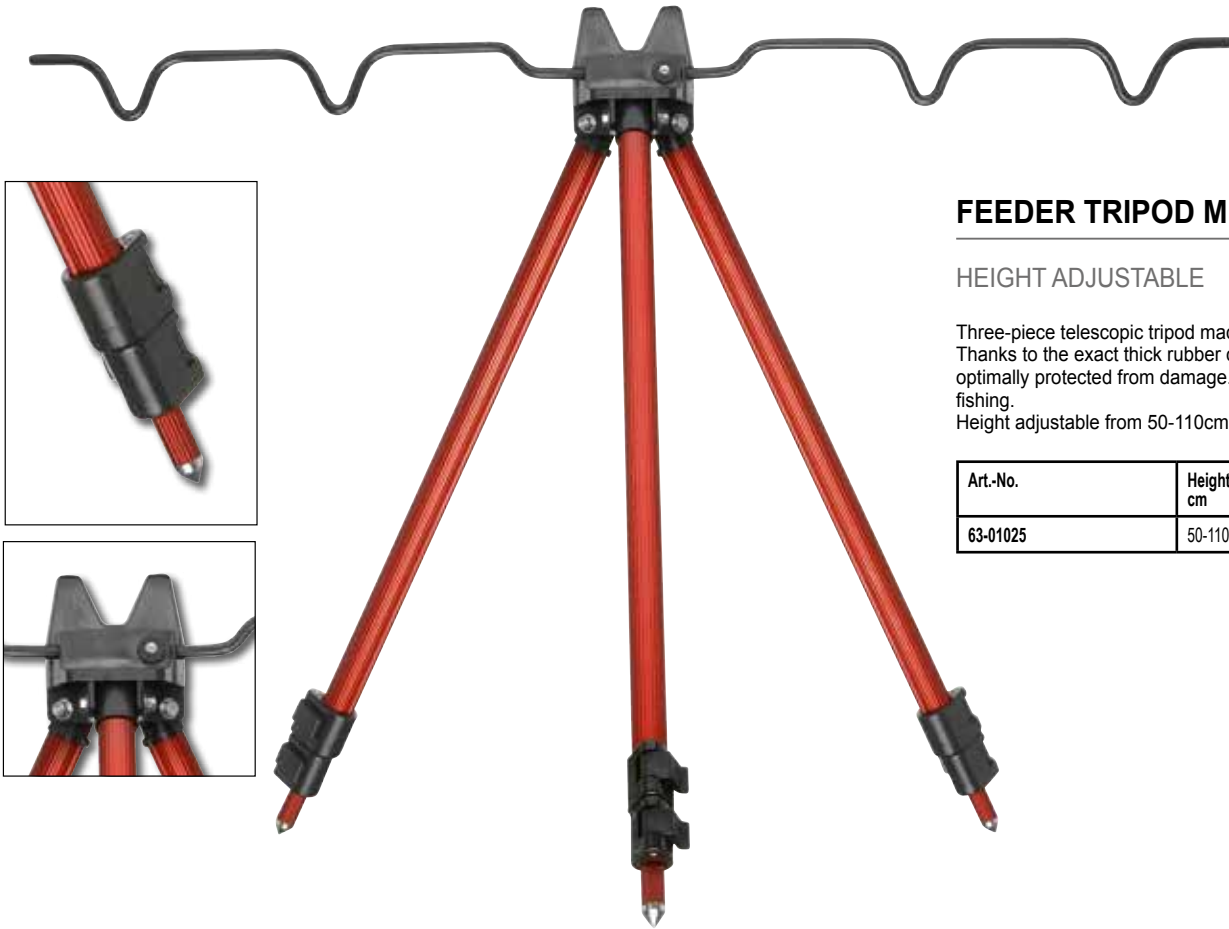

FOR 2 SURF RODS |  
WITH QUICK RELEASE FASTENER

This tripod for 2 rods guarantees the highest stability even in rough conditions. Easy to transport as it is made from aluminium. The telescopic legs are adjustable up to 1.80m and are fixed easily and slip proof with quick snaps. In the point of this tripod a hook is attached to fix a sand bag for stabilization, if needed.

Art.-No.	Height cm
63-01777	-180

## FEEDER RESTS

### FEEDER TRIPOD M|6301

**LURE BAGS - SERIES 5000**

The compact, functional soft plastic lure bags with „Full Shock Protection“ represent the era of modern predator fishing and appear classical without being conservative. The orange ornamental elements give a vivid touch to the bags. These bags, which are delivered with the CORMORAN lure boxes, combine the claim of functionality with the desire for timeless design.

**LURE BAG M|5005**

**FULL SHOCK PROTECTED**

Perfect organization within the rucksack and a pleasant carrying comfort care for more fishing fun. The especially developed rucksack for soft plastic lures offers enough space for all necessary stuff. The adjustable, ventilated and thickly padded carrying straps ensure a comfortable carrying even when the rucksack is fully loaded. The 4 lure boxes (35.5x23x4.5cm) within the lower main compartment are accessible via a transparent net lip at the front, whereas the roomy upper main compartment can be opened nearly completely. Furthermore this rucksack is equipped with a big superimposed pocket with integrated compartments for small accessories and 2 roomy, padded side pockets. The superimposed hard case for glasses, which is easy to access and protects your glasses perfectly, is also a very handy gimmick. The PVC bottom ensures a great durability and can be cleaned easily.

Equipped with a broad, very comfortable and thickly padded carrying system. Size of bag: 40x2439cm (including superimposed pockets)

Material: Bag polyester, PVC coated

Art.-No.	Size cm
65-05005	40x24x39

**LURE BAG M|5002**

**FULL SHOCK PROTECTED**

Convenient to carry by hand or flicked over the shoulder! This handy, very compact soft plastic lure bag with “Full Shock Protection” is ideally suited to carry all necessary lures and stuff without being handicapped by too heavy weights during the “endurance sport” spin fishing. A smart choice for ambitious predator anglers. Delivered with 2 lure boxes (27x18.5x4cm) at the main compartment and a smaller lure and accessories box (20x14.5x4cm) at the superimposed pocket. The 2 superimposed, very spacious side pockets ensure a fast access to all essential tools or can store additional small tackle boxes. The pliers holders on both sides always keep this important tool ready to hand. The PVC bottom ensures a great durability and can be cleaned easily.

Equipped with carrying handle and an adjustable, padded shoulder strap. Size of bag: 40x15x21cm (including superimposed pockets)

Material: Bag polyester, PVC coated

Art.-No.	Size cm
65-05002	40x15x21

**LURE BAG M|5006**

**FULL SHOCK PROTECTED**

This outstanding frontloader soft plastic lure bag with “Full Shock Protection” and 2 separated main compartments, which are accessible via a shared lid, is a good choice for frequent anglers and for people with a sense for style. 4 lure boxes (35.5x23x4.5cm) are placed within the lower main compartment, the upper main compartment offers much space for many accessories. Both side pockets are also fully padded and thus perfectly protect the stored fishing stuff. The pliers holders on both sides always keep this important tool ready to hand.

Equipped with a durable PVC bottom and an economically shaped, adjustable shoulder strap with ventilated padding. Size of bag: 47x24x30cm (including superimposed pockets)

Material: Bag polyester, PVC coated

Art.-No.	Size cm
65-05006	47x24x30

Product delivered without content.

Delivered without pen.

### LICENCE BAG M|3041

High-end fishing license case with 4 transparent inside compartments and a pen holder for a secure storage of documents, day permits, fishing license etc.

Material: Bag polyester (600D), PVC coated

Art.-No.	Size cm
65-03041	14x20

### SNELLED HOOK BAG M|3025

Super practical, double-sided bag with clear bags for 20 packs of snelled hooks. Also swivels or steel wires can be stored neatly in this handy bag.

Material: Bag polyester (600D), PVC coated

Art.-No.	Size cm
65-03025	20x11.5

### RIG BAG M|3026

Universally usable rig & leader bag with 10 clear bags, which can be closed individually via zipper.

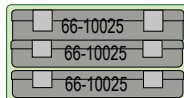

Material: Bag polyester (600D), PVC coated

Art.-No.	Size cm
65-03026	20x11.5

Equipping recommendation with CORMORAN tackle boxes

### SHOULDER BAG M|3031

One of the most frequently copied CORMORAN bags. Developed for spin and fly anglers. PVC coated at the inside, for an easy and quick cleaning, and equipped with a strong PVC bottom.

Equipped with 3 superimposed and 2 side pockets. Adjustable shoulder strap.

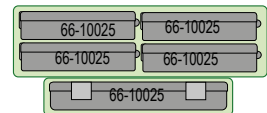

Material: Bag polyester (600D), PVC coated

Art.-No.	Size cm
65-03031	39x23x18

Equipping recommendation with CORMORAN tackle boxes

### SHOULDER BAG M|3032

Practical shoulder bag with one main compartment, one big superimposed pocket and adjustable shoulder strap. The main compartment is PVC coated and thus easy to clean.

Material: Bag polyester (600D), PVC coated

Art.-No.	Size cm
65-03032	36x30x17

**BELT BAG M|3029**

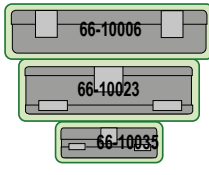

M-SIZE | 30L

This belt bag with an adjustable strap with quick snap has especially been made for spin anglers and offers enough space for any accessories and lures you need to keep handy. A big main compartment (23x12x8cm) and a superimposed pocket (19x11x4cm) for accessories or lure boxes, and additionally a pocket at the back (23x13x5cm) which offers space for a big lure box.

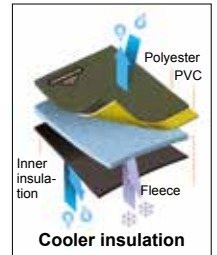

A slot pocket with zipper and 2 additional, movable pockets (14x15x5cm), which also can be used as belt bags separately, extend the stowage considerably.

Material: Bag polyester (600D), PVC coated

Equipping recommendation with CORMORAN tackle boxes

Art.-No.	Size cm
65-03029	23x13x17

**ANGLER BACKPACK M|3038**

M-SIZE | 30L

Compact „De Luxe“ rucksack with a capacity of about 30 liters. We equipped this rucksack with an extremely comfortable carrying system and a padded, breathable back part, because primarily during spin fishing, you need to carry the rucksack over a long time.

Efficient and secure rod holders are located on each side, and a big zipper pocket is settled at the front. The lid is designed completely overlapping to improve splash water protection. Equipped with a solid PVC bottom.

Material: Bag polyester (600D), PVC coated

**ANGLER BACKPACK M|3039**

XL-SIZE | 40L

Extra big „De Luxe“ rucksack with a capacity of about 40 liters. Equipped with a 30-liters main compartment and a separated cooling compartment with integrated insulated fleece.

The extremely comfortable carrying system and the padded, breathable back part features this rucksack as well as both rod holders at each side and the big zipper pocket at the front. The lid is designed completely overlapping to improve splash water protection. Equipped with a solid PVC bottom.

68-47300	52x45	43-54	85

## Detail explanations

### Polyester 600D

Tear-proof and abrasion-resistant material with water-proof PVC coating.

### Full Shock Protection

The shock absorbing fleece protects tackle boxes and accessories against damage due to impacts. Embedded between the outer polyester and the lining.

### Zippers

Reliable plastic spiral zipper of 7mm and CORMORAN pendants.

### PVC bottom

Ensures great durability, can be cleaned easily and additionally stabilizes the bag's bottom.

### Overlapping lid

Protects the main compartment from soaking water via the zipper as far as possible. For a fast opening and closing of the zipper simply turn the overlapping edging up and the complete zipper is uncovered.

### Pliers holder

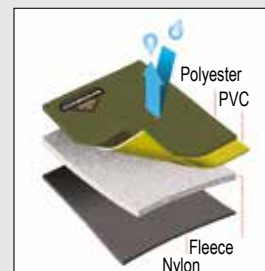

Positioned at the bag's side for a quick access. Universal size for nearly all common pliers. Closable via hook and loop fastener.

### Shoulder strap

Within this series, all bags (except the rucksack) have a removable shoulder strap with padded, adjustable sholder pad.

### Design

Classical, conservative with ageless green. The orange ornamental elements give a vivid touch to the bags.

### Full Shock Protection

The shock absorbing fleece protects the equipment from getting damaged in case of hits and shocks. Embedded between polyester shell and nylon lining.

**FOLDING CHAIR M|9000**

Economic foldable chair with strong, tear proof covering.

Material: Cover polyamide

Art.-No.
68-90000

**ANGLER UMBRELLA M|3530**

XXL-SIZE | ARC MEASURE 350CM

Fishing umbrella with robust canopy. All seams are double stitched and gummed up with sealing tape, thus preventing the intrusion of water through the seams. Additionally this XXL umbrella features three eyelets, which enable fixation at windy conditions.

Delivered with tent pegs and guy wires.

Arc measure: 250cm

Material: Umbrella cover polyester (210D), water-repellent coated

Art.-No.	Color	Size cm
68-35250	green	250

**Thermo Boots**

High quality, reliability, a good fit and a great look have been the standards for the development of these boots. The result are angler boots, which answer very high expectations. These boots are the first choice for spinning anglers, who move a lot during fishing. But this boots are also a convenient alternative to rubber boots for every other fisherman. They feature a strong inner shaft that stabilizes the foot and prevents snapping of the foot far better than a rubber boot or sneaker.

**ASTRO-THERMO BOOTS M|9177**

WITH NON-SLIP RUBBER SOLE

Very comfortable thermo laced shoe with rough cloddy non-slip rubber sole for particular sure-footedness. The sole construction is waterproof till the rubber belt. With strengthened high-cut toe cap for optimum mobility and protection of the toes. The thick foam padding contributes to optimum thermal comfort. Corrosion resistant smooth running shoe-eyes, strong quick-release hooks and the finger lug facilitate lacing these shoes.

Material: Outer material 80% velours leather, 20% nylon; Inner lining polyamide (Nylex); Sole thermoplastic rubber (TPR)
